Krave - June 13, 2016, 7:04 am

What the mind can conceive, it can achieve.

Owner: [Krave](#)

Leaders: [Regulus](#) - [Epilepsy](#)

This is an official recruitment for the usergroup, The Order.

The Order is a general discussion group. We are extremely active within the group SF and we are also an extremely tight-knit community.

About this specific recruitment:

Once you've applied on this thread, you will shortly be contacted by an assigned leader of The Order. From there, the leader conducting the interview will be getting to know you and will ask some questions about yourself and your time on Hack Forums. After the interview has concluded, the conversation will be sent to me and a decision will then be made between me and the leader.

The interview will only happen via PM and no off-site conversations will count towards your acceptance.

We are not following a script while interviewing you. How the interview is laid out is completely up to the interviewing leader.

Requirements to apply:

- *Be sensible and not post spam throughout the forums.
- *Have a good understanding of HF rules.
- *Be friendly. Flaming & arguments wont be tolerated. Debates are fine.
- *No valid scam reports.

Application:

To apply, please post about who you are in no more than two paragraphs. Make it interesting and you will be contacted for an interview shortly after. Be prepared to expand on some of the things you have talked about.

Group Terms:

You must post in 48 or 72-hour Activity Check threads. These will be posted randomly so you must be active.

General inactivity/ghosting will get you kicked.

I have the right to deny any applicant.

Me and my leaders have the right to kick you anytime.

You must respect all members.

No leaking SF content.

This recruitment stage currently has no end date. Applicants will be interviewed as applications come in.

If you have not been contacted within 48 hours of your interview ending, consider yourself denied.

Cooligan - June 13, 2016, 7:06 am

Good luck to everyone who applies for this.

The Order is one hell of a group.

Stashyy - June 13, 2016, 7:07 am

Wow this seems cool, great to see this happen.

Would love to read some applications.

C0ldplay - June 13, 2016, 7:08 am

Okay I guess I'll apply, this group looks really cool.

Hi, I'm Robert. I'd be pretty active in the gambling sub forum, since I've had quite a few years of experience with gambling. I'd be happy to answer any questions posted in that sub forum, and also help a few users get better in general at gambling. I believe that I would be a great addition to the group because I know a lot about getting to know other people, and I'm a humour guy so I can lighten the general discussion up.

sorry I'm on 1% don't wanna die

Gilbo - June 13, 2016, 7:11 am

Looking forward to see new people in The Order.

Good luck to all who applies!

Ooze - June 13, 2016, 7:12 am

I can confirm that this group is extremely active

If IM not blacklisted I would like to apply

Rita Ora ? - June 13, 2016, 7:14 am

Hello, I am Rita Ora and I am best known for my background in eWhoring. In my personal life I am a student aswell as a game designer. I work closely with companies such as Jagex, Sony and Frontier.

I enjoy gambling and even for a while did some matched betting with guaranteed returns. Otherwise, I am always happy to converse with people and like being active in a community.

Thanks :)

TheChi?f - June 13, 2016, 7:17 am

Good luck to everyone who's applying. Looking forward to interviewing probable members ?

Thierry - June 13, 2016, 7:18 am

I am Thierry, I have a mostly physical sciences background and am working on becoming a computer science / business person instead.

?Opulence - June 13, 2016, 7:22 am

Looks interesting, I'll apply.

Well, I'm Opulence, formerly known as R3m3mb3r. I work as an IT professional so I am extremely knowledgeable with hardware / software troubleshooting. I also went to school for computer science so I am quite familiar with C++, HTML, CSS, and various other languages. Most of my posting is done in the lounge. I like to lurk on HF however I also enjoy helping others problem solve. You'll often see me comment on threads with hardware questions or software troubleshooting, such as windows issues, and I can also help with networking (firewalls/switches/DNS/etc..).

I have never been part of an official HF group before so I think this is a good opportunity for me to join. I've spent the past few years building up my account and contributing to the community so I would like to take this chance to join and grow with a group on HF. Thank you for taking the time to read my application.

??e rando? d??c? g?y - June 13, 2016, 7:23 am

Hi, My name is ??e rando? d??c? g?y and i'm from the (You guessed it) The Netherlands! I'm currently self-employed (Freelancing as a programmer) and doing some server hosting (not my hackforums thread but a real company (Not going to tell the name cause personal info). I really like to be in a group about gambling because its fun (Not going to lie, i lost a lot of money because of Rage Gambling ^_^ but its still fun)

Kind Regards,
??e rando? d??c? g?y

Heart of Kings - June 13, 2016, 8:02 am

Hey I was wondering if I could apply for a job for The Order? I am a great guy and can pass any interview because I am a multi talented individual.

\$pooky - June 13, 2016, 8:04 am

I would like to apply If you accept non-upgraded members too.

We do accept non-upgraded members.

#Exploit - June 13, 2016, 8:06 am

Looks very Interesting. I'll be glad to apply.

I'm Legend, I love HF and I'm more than happy to help people. I'm Expert in Penetration testing and Web hacking. I also do free stuff for HF community (giving awards for free).

I'll be happy if I'm accepted .

Regards

Yin Yang - June 13, 2016, 8:08 am

Good luck to all the members that are joining!

labroca - June 13, 2016, 8:16 am

Loyalty, consistency, Pythonic, obsessive, and intelligent. I do not gamble anymore, as my total losses are < 40 BTC.

In the chances I am selected to be apart of The Order, my time will be spent representing the forum under the prestige of the userbar.

I am developing an official hackforums client called hackernet, it is projected to be huge.

Nice to see the recruitment open...

Hi I am Regan I am an 18 year old male from Scotland I work as a landscape gardener, when I am not working I am on the computer talking to my buds n chilling out playing CS:GO.

Telstra - June 13, 2016, 8:39 am

Very interesting method of recruitment Krave, looking forward to new members and perhaps interviewing some myself. I will be in touch tomorrow about it.

Best of luck to all applicants!

Nasyr - June 13, 2016, 9:47 am

Alright then lets start off with some basic information about myself, my name is Nasyr, I'm

19-years-old and work in I.T. Passionate about website development and as such forums in particular. I've owned many websites over the years but my skills are crossed in programming, graphic design, networking, games design and ethical hacking. I'm one of those people who love to help people regardless of level of skill, communication and support requirements.

Undefined - June 13, 2016, 10:00 am

Group seems very active and interesting.

I'm a pretty blackhat guy. I like coding in C# and JS. I currently own a BTC gambling site that has, in the last couple of months, had around \$4,500 bet on it. It's a very new site so it's no wonder that there isn't much betting on it. I'm currently leading the site with Dexon (from BustaBit). I mostly focus on botnets and I've owned my fair share of larger ones too. I've done fraud and a lot of general blackhat shit. I've done a couple of projects in C# and coded a couple of scripts for my betting site in JS.

I'm very friendly and I like to learn stuff. I tend to joke around if I find the group around me to be friendly and acceptable of jokes. I like to be professional when doing business and I make a lot of money online (I don't even work IRL). I really like everything tech related and I REALLY like jailbreaking. I wanted to get into iOS tweak development but never really understood it. I'm ready to get interviewed and asked about anything mentioned in these 2 paragraphs.

Let's go ?

TopKekeroni - June 13, 2016, 10:07 am

Heart - June 13, 2016, 10:15 am

Good luck to all applicants. :)

Wires - June 13, 2016, 10:34 am

Well, I'm quite a whitty individual that likes to at least gain basic knowledge in every section I can. Some I choose to pursue further, so I don't. Around Hack Forums I'd say I do more lurking than communicating with people. Not sure why, but I like to fly under the radar. Less hassle that way. At this point in time I've chosen to pursue IT and attempt to make somewhat of a career out of it. Whether it works out as planned or not, I'm enjoying the experience itself. I also take a great interest in writing and designing/coding.

Outside of Hack Forums I'm a full time student, part time youth worker, and a semi professional soccer/football player. I've been pressured over the amount of people who make it in football, so I've also taken the liberty of earning my coaching badges just in case. I'm often either out with friends or on my computer working on one of my projects. I think I'll end it there :)

Stellar - June 13, 2016, 10:41 am

I'd like to apply. My name is Michael, I've been around gambling for roughly 2 years now. I won decently big in CSGO skins however most of my skins are now gone. I love to do graphics as-well as play games. Gambling is something I personally enjoy because I am able to stop myself or know where I am at and I would love to share my knowledge and anything I know about gambling to help any members of the group. This seems like the perfect fit for me in the sense that I am strong in communication and teamwork and I have a passion for taking risks.

Nasyr - June 13, 2016, 10:53 am

I was just accepted into the group, if you haven't applied then I would suggest doing so.

b?xxy - June 13, 2016, 10:55 am

Or you could just add me back you jerk.

Ventriloquism - June 13, 2016, 11:50 am

I guess I'll start out with my name ? My name is clearly Solvite, which is a variant of "destroy" in Latin. I am 19 years old, with many years of IT and computer experience. I live in the United States, and I am soon going to attend a digital forensics college...hopefully within a month or so. I do a wide variety of things on the internet. On the forum and off, I enjoy coding in various languages: VB.NET, C#, Java, and many others. I also am a fan of doxing and anonymity. I am very easily intrigued by what I can find on the internet, and think of it as a game. Exploitation is another one of my new interested as well.

Outside of the cyber community completely, I have more interests: I enjoy Graffiti and urban art. I have been doing both since the age of five. I also like to Skateboard too...and play basketball. Next to those, I enjoy Magic and Ventriloquism (I have many non-mainstream interests ?) Finally, I like to write. Mainly horror stories, but anything that I feel inspired by.

Anyway, that's a bit about me ? thanks for your time!

Kinguin - June 13, 2016, 12:14 pm

Looks interesting, and here's why I'm applying now.

I've been here before, but got removed as I was pretty inactive at that time. Then I've started on new, being more active etc, and I'd like to join again.

Also, as I won the Golden clover right now, and that this is my 5,000th post, I feel that I should get back in again.?

O t t o - June 13, 2016, 12:14 pm

Hey, I'm Otto and I'm currently in my last year of High School studying Computing, Electronics and Business Studies. In my spare time, I love to Ski along with playing video games such as CS:GO, GTA and many others. I spend most of my time on HF in the Lounge and lurking around the other sections.

Vip?r - June 13, 2016, 12:17 pm

Good luck on those applying, shit is lit 100

Sahaj - June 13, 2016, 12:49 pm

I'll be interviewing a couple of members now, good luck.

Davy - June 13, 2016, 12:55 pm

Why not.

My name is Davy, been on HackForums since 2011. I am a IT Network manager. Working for several companies.

I'm very familiar with the internet, networks, graphic design, website development, VPN's, internet currencies, gaming, video making, cracking, internet security, doxing, E-whoring, bots, and a shit ton more, I have tried it all.

In my spare time i go to the gym, watch tv series, and play video games.

Hope you consider me!

Anarchist07 - June 13, 2016, 1:24 pm

Hey, thought I'd throw in my application here, hope you enjoy it!

First and foremost, I'm a very friendly and mature person and I enjoy discussions, I don't let another person's perspective get to me emotionally and it's always very pleasant to have a good discussion with strong arguments and counter-arguments. Currently I'm doing the International Baccalaureate program and I have a subject dedicated to arguments and discussions (TOK). I believe it would be excellent for me to have access to your SF so I'd be able to participate, I'm sure I'll get nicely along with the other members.

I have many personal interests that will contribute to the discussions. I've gambled a fair bit myself, mostly on CS:GO matches but also simple gambling such as Bustabit or Satoshi Dice, but I prefer gambling where I have a possibility of calculating the probability of a win. Other than that, I enjoy playing video games, going to the gym and programming on the side.

I hope I qualify for an interview, thank you!

I'll quickly introduce myself, I am Ramon a 17 year old guy that loves music, business and work. The last 2 years I have been working to make HF a better place. If you want to know more about me, please let me elaborate in the interview.

I will be very honest that I would like to see you (Krave) or Regulus interview me yourselves. I actually don't want to tell my whole life to a stranger.

Looking forward to hear from you guys.

Ta-kun - June 23, 2016, 3:04 pm

Hi, I'm Mortem. I'm currently a full time student who enjoys anything tech related. I sit on my computer for most of the day if I have nothing else to do. I enjoy chatting on IRC and have been for the past three years. I frequent a couple networks and I'd consider myself wellknown and liked by many. When I'm not on IRC I'm usually learning something, whether it be Python, learning the ins and outs of Linux, or reading material on Hack Forums. I occasionally play Xbox One when I don't really feel like sitting at my computer desk. I primarily play Call of Duty: Black Ops III and bullshit aside, I don't see why so many people hate it. I aspire to become a software engineer for a major company like Apple, or a sysadmin.

Hope that's enough, would really like to get into the group. Been looking for one that doesn't have mass amounts of drama surrounding it...

(Looked like a whole lot more in vim... Lol)

Punctur - June 24, 2016, 8:57 am

I am applying to The Order as I think I have a decent shot at getting into this group. For starters, the sheer detail of the userbar and logo really attracts the human eye. I am in love with the current design.

You know what else attracts the human eye? Money.

Money is the route of success and failure. Money is the reason why I use HF as I use this site as a part time job for my real life. Money is also the reason why I feel like I would be a great fit into this group.

I am a businessman and am largely active on HF. I spend around 10 hours or so per day actively engaging in threads and interacting with users whether it be for deals or business-related topics.

Money is what I can bring into The Order and is my main characteristic that sets me apart from the

rest of the users. I believe that I can help my fellow Order members make money online. Simple and easy. My successful threads and businesses I have operated and ran over the years have been the result of other members teaching me the methods for making money on the internet. I fully believe that I can assist others with this talent of mine and would love to help teach my Order brothers about it.

Thanks to all that apply!

granz???????????????? - June 24, 2016, 9:55 am

Hey, I'm Granz. I'm a 16 year old guy from sweden who loves to play video games, make money and gamble. I usually spend my days on hackforums and worth to add is that i usually run a bustabit script overnight and at the morning i'm cashing out the profits or replacing the bankroll if i lossed it all. Been doing me pretty good the past few weeks.

I enjoy playing games such as CS:GO and GTA 5. I also enjoy making money and i have some knowledge that i will contribute to the group for sure.

I have been around in the whole hacking scene for a few years even though i am pretty new to hackforums, i want to expand my knowledge while also making sure to contribute to the group itself and hackforums overall.

Thanks.

SIM-2015410 - June 24, 2016, 4:16 pm

I would like to be interviewed for the group, its about time I found a new group to be part of :)

I'm MeshCollider, I would say I am reasonably well known on HF. I have written many tutorials, helped many members with coding and other problems, won MOTM, been an editor for the HF news, was on the OMC team, and led a few groups in the past (pirates, legends, divine/prism).

Acceptable - June 24, 2016, 6:25 pm

I'm Acceptable, I think my username describes me accurately. Like most, I joined Hack Forums to learn how to be a "master hacker." Turns out it wasn't as easy as I thought it was. I ended up giving my self a 3 month ban to learn programming. I came back recently with knowledge, knowledge on programming, and graphic design. I'm no better than anyone else in here because at the end of the day "we're all same in the eyes of a blade."

To wrap up, I'm just a person that likes knowledge, I love to learn and apply the info I've learned. I love giving back too that's why I always try to give back to Hack Forums in any way possible because Hack Forums gave me so much.

Thank you.

Reven?nt - June 25, 2016, 2:52 am

I am a 20-year-old full-time college student that resides in the USA. I am currently working towards my associate's degree, after obtaining that I plan on majoring in computer science. I am very interested in programming and really anything where I can create new things. Haven't had a lot of time lately, however, I will be diving into the Java language. I have been on Hackforums for over three months now and see myself staying for quite a while. I have many aspirations that I believe would benefit the group tremendously. If you would like me to elaborate on anything let me know :).

Mr. Robot - June 25, 2016, 2:58 am

Hi guys -

I'm just a chill guy who has too much time on his hands, I try to help people where I can and spend most of my online time reading threads and chatting to people via PM.

I am 26+ years of age, I don't partake in any fraudulent activities and I am not afraid of sharing my opinion on subjects that should be discussed. I would like to be interviewed for the group as I am currently in no groups so I am not representing any one place but have been in a large number of groups since my joining last year.

Feel free to flick me a PM any time.

Sajuuk - June 25, 2016, 3:34 am

It's pretty fucking sad when you know your group and its members are so shitty that you have to put "please report any LQ PMing from interviewers to me" in the application thread.

Nasyr - June 25, 2016, 4:01 am

That's not the case, that's based on if anybody decided to flame a user etc based on their responses. Krave likes to cover all possible outcomes as a group owner.

Sajuuk - June 25, 2016, 4:37 am

(Jun 25, 2016 04:01 AM)Nasyr Wrote: [\[CITE\]](#) That's not the case, that's based on if anybody decided to flame a user etc based on their responses. Krave likes to cover all possible outcomes as a group owner.

So he assumes no control over his members? I agree that anyone can do whatever they want before and after they get into the group, but that trust between group owner and member(s) can and most likely will be breached multiple times, yet does he have to address it in the OP? Really? That does show that he covered "all possible outcomes", but typing that out and putting it in the OP shows that he cannot, does not, and will not trust his members and/or "interviewers" to, quote, "be nice" to the interviewees. Thus, putting that in the application info in the OP shows that he does acknowledge that it is possible, but showing applicants that specific sentence shows them that he has more concern over the interviewers being LQ rather than having more concern over the actual applications and what and how the persons being interviewed respond to each inquiry and statement. Why doesn't he just review the apps himself? He owns the group so he has total control over it (within boundaries, of course). Reason is because he probably pays the interviewers to do the job of interviewing for him. I'd like Krave to back up whether or not he does pay the interviewers so I can go further into how flaming applicants, even though he has "no control". And I use quotes around that because the main thing is trust between members.

Looks interesting, I'll apply.

My alias is: Aliasllias, I'm 18 years old and from the Netherlands. This year I did Game Development on school, but it's just not for me. Next year I will start with Sales. Most of my posts are in the marketplace or in other sections where I can help people out with my knowledge. Last months I mostly lurk on HF, but will post more in the future.

I've never been in a group on HF, due to most looking LQ, The Order seems like a good group for me since I gamble a bit sometimes. I also run a sports betting advice service on HF.

Not as if "offended" could describe it. More like disappointed because I manage to pull through victorious on almost every single argument that either I start with someone or someone starts with me. I happen to know exactly how groups have played out for the past two years and I'm sure you know as well, but ohhhh no one will ever know the true cause of group's constant decaying away today, will they? The reason groups are getting less and less popular, and by "popular" I mean among public opinion, not member count, is because every owner wants to make a group based on or around something that's so damn saturated, like how many gaming groups have we had in the past four years? How many failed attempts at marketing groups have we had in the same four years? And now, oh sweet Jesus, lounge groups. Pretty much all that is is a group with a subforum for getting members' post counts up. That's all it's good for regardless of whether or not some somewhat intelligent conversations come up, it's still a damn lounge group. Why the fuck are those even needed? There's already a subforum on the board for that. Post count uppers, that's the one and only sole reason.

Now, onto this groups "focus": gambling. Damn, what an O.G. basis for a group, right? Marketing is saturated, gaming was saturated a long ass time ago, lounge bullshit is getting way more saturated than it used to be, now, ooh, "gambling" groups. Basically another name for a marketing group, but newer and more of an abstract focus of "making money". The counting cards shit, I presume? Hello, I am Mr. Burnham and I am an experienced e-whorer. I believe that e-whoring is an entry method and it is good to sustain myself but eventually I have to move on on different paths. What I have in mind is to build a different sets of skills to do blackhat CPA. I have been reading guides on these methods for some time now and I am confident that I will make it.

One of my hobbies is writing. I get a high when I write articles and tutorials on things that I know well enough and that is why I believe I have the most advanced tutorial in the ewhoring section (you can check it by clicking my signature). I would like to join the Order to exchange information with other people that are on their way on making good money. And the userbar looks good too.

Thank you.

Have you seen any buy-in threads or anything a like? No you have not. This group is not based about money and a lot of the members from within the group (including Krave) actually give back to the community however they can; giveaways, contests etc. Perhaps there has been greedy owners in the past but you've forgotten that the simple fact here is, it's his group. Ha, okay, further in we go:

Nearly every group formed within the past four years has turned to buy-ins or other monetizing methods directed towards getting the money from members. Is he the one owner of the one group that will not ever do it? I think not. I applaud him for giving back even though I've never seen any of his giveaways before, again I see the proof that he has done giveaways, but I can still base my standpoints off of past experience. And why the fuck all you new niggas trying to overrun me with points that have no support whatsoever?

It is his group, stop fucking repeating everything everyone says to project such a futile attempt towards me and combat my successful efforts. The hunger for money is, was, and always will be present in every group. Now, whether or not the owner is involved in it is none of my business until I find out for a fact that he/she is, indeed, money-hungry.

Try all y'all want, my points stand strong with factual support. You guys ain't got shit worth of support for any point you ever made in this whole thing except for this Naysr guy who actually tried to base his standpoint off of a somewhat speculative "fact": that Krave is not money hungry and runs his group non-profit (which I know for a fact is not true at all).

Hello

I am a 22 year old dude with quite a bit of techy skills.

I love to contribute and all in all just teach my wisdom, I am somewhat experienced with coding in AutoIT and I am very experienced with creating configs in Sentry MBA.

I have also worked quite a bit with CPA marketing, SEO & Web development and I'd say I know my way around it pretty damn good.

I am interested in The Order because it would give me an opportunity to contribute even more within the community sub-forum, sometimes I like keeping some of my contributions a bit more private due to the world wide web having endless amount of leechers, I am no leecher and thats a fact!

I am on my computer everyday and I work my butt off to help out others who are trying to learn stuff within the same fields I am experienced in, so that would be the same case if I were to have access to your sub-forum, teaching my wisdom to anyone in need!

Thank you for reading my info and good luck to all participants.

Really, try harder next time. I see bullshit started by members such as you as well, and I call them out on it. People on this fucking forum are never happy. Someone is selling buy-in spots: "Oh my god, how dare they charge us to be in their shit group". People offer recruitment threads: "Oh my god, how dare they try interview us before they allow us into their group". What the fuck do you expect, for us to approach YOU and beg to be in our group? If you want to be in the group, apply, if you don't, kindly fuck off.

PS. Marketing may be saturated, but I'm thinking about buying a group and focusing it towards marketing, strictly monthly buy ins only, with a limited amount of members. Think of it as Illuminati v2.0, without the scamming owners. I bet that would make a lot of members on HF butthurt as fuck.

PPS. Regarding the supposedly "post-whoring" of the members. I don't see the point of this. Members can post-whore in the actual lounges too, so we don't have to "post-whore" in our SF at all. In fact, I got kicked twice for not posting the SF hardly at all, because I don't like seeing my post count go up. Also, Omniscient generally junks the posts (later pruned) which removes the post count from members' profiles anyway, so what exactly seems to be your point here? Each group, if I'm not mistaken, has their own active Skype group chats, and Discord group chats, so spamming in the lounge really isn't necessary.

PPPS. Our group is not directly aimed at gambling. However, a few of the members have a passion for it, so, as a good group owner should do (criticize me for ass-kissing all you want, I'm just saying it how it is, plain and simple), Krave made it possible for us to discuss / recruit members based on a passion that some of the members have. How many group owners do you see doing that, leading a group into any other direction, other than the one THEY themselves as group owners want.

Have you seen how many products each member of our group has released individually? If Krave was as money hungry as you make him out to be, surely he would have offered us the chance to brand them into The Order products (like many groups before The Order did, Legion, Empire, Illuminate, to name a few) and take a percentage of the profits. No, he hasn't done that, and I guarantee you, he would have made a shit load of profit for himself, more than any buy in would, just by allowing us to do that. So it doesn't make sense for you to try saying he's money hungry when this group has been running for 4 months, and he hasn't made any profit from his members at all.

If I missed anything out, before you call me out for "missing shit out" just tell me what I missed out on and I'll respond to it. I couldn't both read everything and send Krave the weekly buy-in at the same time.

(Jun 25, 2016 09:28 AM)Sajuuk Wrote: [CITE](#) My points have been made, thus, I have no more room in this thread until someone starts shit again like that shit you just pulled ^^^. Telling me to fuck off isn't going to fix anything. Fixing the things that need to be fixed fixes them. Learn a little before you try to bash someone that's more experienced than you. I'd love for you to try and provide support for telling me to fuck off, just try, that's all I want.

GG dealing with shit in PMs and posts at the same time.

You made your point? ok. Great. Wow you won. nice. so, we will fix it? right? Its up to the leaders if they feel like they need to fix anything? You can't force a guy to get his car's seat covers replaced just because they are either worn out a bit? its his fucking car and he can do whatever the fuck he wants with it? You should start your own "Righteous" group and prove something if you really are serious about whatever you are saying above. His group -> His Rules -> His will.

Oh and just because you joined the forum like 3 years before me, doesn't make you "smarter" than me.

You have said your point, this is a recruitment thread not a discussion. Go make a thread in lounge and get your clover if u want.

oh and BURN

(Jun 25, 2016 09:39 AM)?XiS Wrote: [CITE](#) Seems someone is very butthurt. Therefore, I must post a high quality response in order (see what I did there) to prove him wrong.

You must be the kind of twat that laughs at people that do well and want to learn in school. At least he posted a thread where he wanted to learn how to do something, instead of just copy and pasting the code directly (which is what most members actually do).

Okay, now let's deal with this. I've been a member here just as long (okay, two months less, fight me) as you. So I've seen everything going on around here, as well as being pretty tight with most of the group owners. Yes, most of the owners were money-hungry.

I see bullshit started by members such as you as well, and I call them out on it. People on this fucking forum are never happy. Someone is selling buy-in spots: "Oh my god, how dare they charge us to be in their shit group". People offer recruitment threads: "Oh my god, how dare they try interview us before they allow us into their group". What the fuck do you expect, for us to approach YOU and beg to be in our group? If you want to be in the group, apply, if you don't, kindly fuck off.

PS. Marketing may be saturated, but I'm thinking about buying a group and focusing it towards marketing, strictly monthly buy ins only, with a limited amount of members. Think of it as Illuminati v2.0, without the scamming owners. I bet that would make a lot of members on HF butthurt as fuck.

PPS. Regarding the supposedly "post-whoring" of the members. I don't see the point of this. Members can post-whore in the actual lounges too, so we don't have to "post-whore" in our SF at all. In fact, I got kicked twice for not posting the SF hardly at all, because I don't like seeing my post count go up. Also, Omniscient generally junks the posts (later pruned) which removes the post count from members' profiles anyway, so what exactly seems to be your point here? Each group, if I'm not mistaken, has their own active Skype group chats, and Discord group chats, so spamming in the lounge really isn't necessary.

PPPS. Our group is not directly aimed at gambling. However, a few of the members have a passion for it, so, as a good group owner should do (criticize me for ass-kissing all you want, I'm just saying it how it is, plain and simple), Krave made it possible for us to discuss / recruit members based on a passion that some of the members have. How many group owners do you see doing that, leading a group into any other direction, other than the one THEY themselves as group owners want.

Have you seen how many products each member of our group has released individually? If Krave was as money hungry as you make him out to be, surely he would have offered us the chance to brand them into The Order products (like many groups before The Order did, Legion, Empire, Illuminate, to name a few) and take a percentage of the profits. No, he hasn't done that, and I guarantee you, he would have made a shit load of profit for himself, more than any buy in would, just by allowing us to do that. So it doesn't make sense for you to try saying he's money hungry when this group has been running for 4 months, and he hasn't made any profit from his members at all.

If I missed anything out, before you call me out for "missing shit out" just tell me what I missed out on and I'll respond to it. I couldn't both read everything and send Krave the weekly buy-in at the same time. (Jun 25, 2016 09:43 AM)[REDACTED] Wrote: [\[CITE\]](#) Yes, hello, I'd like to sign up for an interview please. To apply, please post about who you are in no more than two paragraphs. Make it interesting and you will be contacted for an interview shortly after. Be prepared to expand on some of the things you have talked about. Going to close this for now. We have enough members being interviewed right now and I do not like the direction this thread has taken.

Thank you everyone who has applied. If your interview hasn't began yet, don't worry. It will happen soon.

Currently at an hotel and I might be a little intoxicated, but still looking forward to interviewing some people! =)

F0rtySev3n - July 13, 2016, 11:30 am

Afternoon Gents,

I won't try to sugarcoat it I'll just jump in. I'm and IT Consultant and Business owner(Registered, HST Registered as well), Why I'm looking for a group is to help and take part in projects too keep myself up-to-date with the latest trends, and my skills in check(don't use it you lose it.) Education wise I have an advanced diploma in computer programming analyst, experience wise, I have 3 years in Healthcare as a systems admin and 2 years as an independent contractor. So what can I offer? I enjoy teaching, wether it be how to program, or how to run a company from the blue-for side.

Anyways, looking forward to hearing from you

Allelujah - July 13, 2016, 11:34 am

Hello. I am Allelujah. From the united states of america. I am writing at the chance of an interview.

I am twenty years of age, I work for one of the largest retailers in the world as management. I have been on my own for a little over a year now and still doing well. I have graduated from college with an associates in Welding Technologies. I plan to go back soon for another degree in a computer related field to accommodate my Technologies degree.

I spend most of my free time at the screen doing coding, networking, and putting together market strategies for trading. I'm well aware of my coding languages, more so the web side of coding rather than the programming side. I do have established contacts that help with programming when need be. I would love to discuss this more!

Frankey - July 13, 2016, 11:43 am

Hi! My name is Frankey, I'm a kinda active Hackforums user from The Netherlands; Amsterdam. I love being active within the lounge section here on HackForums, but some games are always welcome. At the beginning of my 'Hackforums journey' I was very active within the 'Free Ebooks section', I thought that I was a real money maker, but in reality I wasn't. After that I've tried to be High Quality within other sections and I kinda succeed. Now a days I have a YouTube Likes/Subscribers/Views service and I'm giving out a free ebook, also do not forget my Bitcoin Faucet Rotator which I've made for the users here on Hackforums.

As already clarified I'm not a hacker, neither am I a pro coder/programmer. I'm more a casual member who's active within the Lounge. I'm also an active Counterstrike Global offensive, Team fortress 2, Overwatch, World of Warcraft and Trove player. I hope I've put enough effort within this message, I hope I can get accepted. If not; congratulations for everyone who does!

Keat - July 13, 2016, 6:19 pm

I am going to be slightly vague but more detailed information can be had through PM.

I am in my mid 20's and I have been around PC's since about 10. I am mostly interested in pentesting/hacking which my career is now finally in that direction. I recently acquired my Sec+ and I will soon be getting a GCIH or GCFA. After that I will be taking the route for a CISSP most likely. I am a few credits shy of a bachelors in a IT related degree. I am also being trained by the DoD to work for the DoD to do some of this sort of stuff.

I spend my time on the computer mainly browsing and lately playing a bit of OSRS to clear my mind from the vast amount of knowledge I get during class. I do however spend time watching Kali tutorials and playing around with VMs. If I were to pick one award on this site to get it would be the BH award. Latest stunt I completed was SE'd Microsoft for 2x Surface Pro 4 tablets.

Fix Yo Bottles - July 13, 2016, 6:24 pm

Im not going to sit here and bullshit you on how cool i am, but i use to be a fairly known member of the community, I did take a lot of time off and todays my first day back. To be honest the reason why I want to join is to make some new friends as a lot of mine have left as well as to write in the gambling subforum. I ran a gambling groupchat and there i made many users a lot of money, you can look at my last thread if needed. Thanks.

7even - July 13, 2016, 6:28 pm

Hello members of The Order. My name is Derek Shepherd. I'm currently in my junior year of high school and I'm taking 3 AP classes and the rest are honors. I joined HackForums in March of 2016 (My IP matching is from an account closed due to inactivity, which had about 3 posts on it). Since then, I have nearly 4 weeks on the site, over 3000 posts and I have completed several deals with members on here.

I find interest in the entire community and I enjoy giving back to it. I have upgraded 3 members, given away \$35 worth of BTC and have bought 2 donation awards onsite. I'm more than happy to help out anyone who I feel deserves it. I have never been in a user-owned group and I would enjoy being in The Order. I feel like I would fit in the Gambling section because I am around \$250 positive. I hope I've made a good impression on whoever is reading this. Thank you for taking time to read my application. Have a nice day/night.

?I???po?N? - July 13, 2016, 6:34 pm

Well, I'm Ramon, a 18 years old Software and Information Engineering student from the Netherlands. I got a lot of experience in programming, mainly java and web based stuff (html/php/js/css).

Beside all nerd stuff like progamming, playing WoW or pokémon and watching silicon valley I like to

produce dance music. I've been producing dance music for over 3 years now so I have a lot of experience in sound designing. I hope I can combine my hobbies in one job one day, like maybe building DAW software (Digital Audio Workstation) or building software for synthesizer plugins. I'd also enjoy grabbing a lot of beers with friends, get wasted and go out to the club. Almost forgot to mention, but I have a lot of experience in E-whoring too. Well that is basically me, I like to keep things short and clear.

McDolands - July 13, 2016, 7:48 pm

Here we go:

I'm a 15 year old female from the state of Ohio. I take online schooling in my school district and I'm in the 9th grade. I love Science and I enjoy Creative Writing. I enjoy listening to music, playing video games, reading, and learning in my spare time. I love the game franchises known as: Portal, Pokemon, Sonic The Hedgehog, and Silent Hill. Some of my favorite video games include: Portal 2, Star Fox Adventures, Mirror's Edge, Pokemon Black, Conker Live and Reloaded, and Sonic Generations. I also enjoy Fable 3. My favorite movies include: Megamind, Wreck-It-Ralph, Sinister, and The Nightmare Before Christmas.

I'm a brony, vegetarian, democrat and an atheist. I love animals, namely cats. I like watching anime and my favorites include: Soul Eater, Death Note, among others. I love Freddy Krueger and Jeff the Killer; I think they're both awesome. My favorite ponies include: Rarity, Princess Celestia, and Octavia. I prefer cold weather over warm. I despise conspiracy theorists. I support Gay Marriage, Abortion and some other controversial type things. Rarity is my all-time favorite pony, with Octavia as a close second. I play on Xbox 360 at the moment. I'm obsessed with cleaning and people say I have OCD. I can usually give out good advice when needed. Despite being 15, people say I'm mature for my age, and I also still enjoy coloring books and stickers. >3< I also like stacking things such as dice, dominoes, and jenga blocks.

I love Puella Magi Madoka Magica, MLP, Invader Zim, and How I Met Your Mother. My favorite bands include: Linkin Park and Poets of the Fall. I don't really sleep that much and I sleep at seemingly random times. I'm a night owl. I like watching Pewdiepie (yeah, I know), Cry, Two Best Friends Play and ADoseofBuckley on Youtube. I spend most of my time on the internet and I like reading on my Kindle Fire. I have a fierce obsession with Portal 2, Megamind, and some other things. <3

IncarnatiOn - July 14, 2016, 2:35 am

Hello, I'm IncarnatiOn, a 20 years old graphics designer and gaming enthusiast. I gotta say, I've always admired The Order and the idea behind it, never would've thought the day would come where I get the chance to actually apply and be considered, this is amazing.

Spoiler ([Click to View](#))

I'm not saying it's the only reason, but The Order's GFX have seriously caught my attention and I need to get insights from your GFX team and hopefully join in!

MATT?HEW - July 14, 2016, 12:02 pm

My name is Matthew, I'm 15 and have come to this forum off and on, my most active point on this forum was early 2014 when I joined Infamous and Instinct.

I loved participating in all the subforums topics, Instinct was for my gaming interest, while Infamous was more based around community and how the group members were doing in life.

But after those two groups disbanded, I lost my interest in posting, and most of the people I were close with had left, haven't really been active since, right now it's summer and I have tons of free time and would like to know and talk to more people about the things I love in this world, I am very

interested in gaming, music, and Innuendo. Thanks for reading.

Muddy Waters - July 14, 2016, 1:47 pm

Application for The Order.

I'm Muddy, named after a Chicago blues legend, the inventor of electricity (not really but you might get my joke). My main interests are biology (aquatic life mostly), gaming, music, gfx and a bit of money making. I spend most of my freetime playing games or guitar, analyzing old blues tracks or browsing HackForums. I'm not your typical "l33t Hackz0r God" basically. To me music is a way of life, I prefer to listen to easy songs that I can learn by ear easily, since I cannot read music on a sheet.

I have tons of more to say outside the 2 paragraph mark!

SIM-82498 - July 14, 2016, 1:49 pm

Wassup,

I'm Dervie and I'm 23. I registered on Hackforums initially to learn how to "hack" Habbo accounts. That was in 2009, when I was 16 years old and naive. From there, I wasn't really active much outside of the Habbo forum. After about a year or two however, I decided to become more active on the forums because I was introduced to the marketplace. Ever since then, I've been participating mainly in the marketplace, and seldom elsewhere. In regards to group memberships, I haven't applied for much as I didn't feel like I fit in any. Fast forward to 2013-2016, this was when I decided to actually be a member of the community. I've been constantly conducting deals and exchanges throughout the marketplace and have decided to further my participation in the community by joining a group.

Bam, interview me.

Krave - July 14, 2016, 4:16 pm

Closing this for now while current interviews are being run.

Krave - August 30, 2016, 1:06 pm

Interview recruitment is back open and interviews will now be conducted by leaders only.

Good luck to the individuals applying, this is a great group to be apart of.

Jak! - August 30, 2016, 1:09 pm

The Order is a great group to be apart of, I'm looking to meet more people so good luck to everyone applying.

Regulus - August 30, 2016, 1:17 pm

Looking forward to interview some people :)

?Shatter? - August 30, 2016, 1:27 pm

The names Nicko Savage. I'm Canadian Born and Raised. I'm a friendly and chill guy. I'm a honors high school graduate, I currently work for my city. I operate a vacuum truck. I'm a big PC Gamer, the main game I play is World of Warcraft. I have played since the day it came out and I have been in the top 90th percentile of my class for over 4 years. I have written a class guide on Icy-Veins before for my class that I play.

I have gone through many hardships in my life, I've always bounced back and stayed in the fight. I

volunteer during my days off at the local soup kitchen, as well as mentor at a children's summer camp called "Camp Wannacombac". I teach them how to canoe, and other water related activities.

Gamer Fusion - August 30, 2016, 1:51 pm

Hello, my name is Raymond, although most people call me Endire. I've been doing business since I was essentially 10 years old, and I'm currently 15. I started off playing a video game called Minecraft, where I was contacted by several large server networks such as Arkham, Momento, Kastia, etc to build for them. I was paid according to each build, and from there I decided to turn my interests into rendering. From rendering Minecraft builds, I learned Photoshop skills to enhance photos and such, and I've recently been working at improving my Graphic Design skills.

In the future, I'll be majoring in Graphic Design which is I'd say one of my specialties. I believe I can benefit to The Order because of this, and the reason I'd like to join The Order is because it is a well organized community with high quality members. I enjoy gaming on my free time, as well as marketing different products here on HF. I currently only have 1 product up, but there are many more soon to come.

Thanks for taking your time to read this,

Endire

Don Genovese - August 30, 2016, 4:25 pm

Hi, I'm Reddington.

I am generally interested in technology, coding, hacking and marketing, and have been since a young age. I mostly spend my time coding. I have coded multiple projects but which I have now had to sell ownership to. I have also coded a project for scorpiOn. My main coding skills lie in the .Net Framework. I would love to join this group, as it seems to have a lot of intelligent members, and I would like to share information with them and help them learn the things I know too.

I am a very active member, and can contribute to the group very often. I would also love to be involved in group projects or anything of the sort.

Thank you ?

Ratt - August 30, 2016, 5:47 pm

If you're looking for a group this is the one to join.

Pew ? - August 30, 2016, 7:51 pm

Hello, my name is Pew. I joined Hackforums two years ago in seek of new music to listen to. Since joining I've learned a lot of things and met a lot of new people. I'm currently in my second year of college for computer engineering. I love to code. I've been programming for most of my teenage years. It's a fun way to relieve stress and express myself.

I've been apart of many official groups on HF and know how they work and operate. I hope to join this one too.

Guap - August 31, 2016, 2:17 am

Hi, my name is Levi, otherwise known by my alias Fisto.

I am a self-taught Graphic Designer from Canada. I am mostly interested in Graphic Design, Basketball, Music, Movies, Bikes, and Psychedelics.

My activity is relatively high, I can assure quality posts to be made in the sub-forum should I be accepted. I enjoy lounges and conversing with other members.

I am generally laid-back and open to making new acquaintances.

Hopefully I will be interviewed as I see this would be a wonderful opportunity, thanks!

Krave - August 31, 2016, 8:48 am

Everyone who has posted so far is currently being interviewed.

I wont keep this recruitment open for long so apply asap.

Soulmate~?? - August 31, 2016, 9:11 am

I didn't even know this existed but it's a great idea. My name is Soulmate and I've been on here since 2011 when I joined to sell gamertags. After I had my final tag and over 6k posts in the section I stopped and moved on to other aspects of the forum, such as joining usergroups and trying to help any user if I had expertise in that field. I took a break from HF from about mid 2014 to early 2016, which was when I was closed for making a controversial feedback thread but I returned in June when I had contacted Omni and he said I was allowed to make a new account.

These days, my hobbies include music and sound design, drawing, web development, and trying to help users in any way I can.

W?lf - August 31, 2016, 9:14 am

Hoping to see some new faces ;p

Nasal - August 31, 2016, 10:07 am

Lavishly here.

Hey, I'm Lavishly and I'm mainly interested in E-Whoring/Politics/Rap/Football and I'm looking to broaden my knowledge & friendships. I'm a sociable dude who isn't afraid for a challenge. I've never been apart of an HF group so I think this is a good chance for me.

Thank you for taking the time to read this application. All the best.

Regards, Lavishly.

usd - August 31, 2016, 2:47 pm

This group looks bad-ass, so I'll apply. My name is Retton, or Samuel. I'm serious about business and well on my way to success, behind the scenes. I know quite a bit about blackhat things, but I don't participate in anything like that much anymore, so no worries about that. I am knowledgeable on a broad area of subject, so I'm just a jack of all trades pretty much. I would like to join because this is the kind of opportunity I need to get my presence started on HackForums. Hope to see myself in the group soon, thanks guys! :)

SIM-2998667 - August 31, 2016, 4:17 pm

Hi, I'm Oedipus, joined HackForums this year but I have enjoyed my stay so far, met very great people and also I have gained a vast amount of knowledge on things such as Remote Administration Tools, Ewhoring and CPA Marketing. I'm currently 18 years old, finished college and

I'm doing my exams to enter University, where I plan on studying a course on Software Development. I'm also a casual gamer, mainly play Rocket League, sometimes CSGO and League of legends.

I would love to be a part of The Order as I have heard that its a pretty HQ group.

Gorilla - August 31, 2016, 6:46 pm

My name's Josh, A.K.A. Gorilla, and I'm looking to join The Order! I'm a pretty well rounded, nice guy who's interested in: Group Projects, Learning to my utmost ability, teaching others, enforcing rules, coding, graphics, and marketing. I enjoy being active on this forum and have no intentions of leaving any time soon. Every group I've been in I've always started projects and been a leader among the general members. I'm always looking to help people out within the sub forums, forum, and anywhere else I can. If you decide to choose me for an interview I'll be more than happy to go into more detail about my purpose on this forum.

Parks - August 31, 2016, 7:24 pm

???? Shana - August 31, 2016, 7:35 pm

Hi there, I'm just a guy with severe social anxiety trying to improve and reach out to people. I'm also a bit weird with crude jokes that people aren't used to, but once they get familiar with it, they enjoy talking to me (I hope). I have a huge interest in online games, currently looking for a job before I go back to school next semester, and met some nice people on discord.

Even if I don't get in, it's been nice and fun to meet a few people on discord in/out of the group ?

Chrylix - August 31, 2016, 8:11 pm

I go by the alias Chrylix and I'm currently 16 years old living in the South West of England. I'm a very fluid person meaning I don't stick to one subject etc. I love programming, ethical hacking/pentesting (my dream job which I'm currently studying towards), GFX and much more. Overall I just love to expand my knowledge and become acquainted with all fields of practice. I've offered a range of services on Hackforums over the years and I just generally believe I'm a friendly unique person who could contribute to the group in more ways than just one.

I hope I'm considered for an interview, thank you. ?
