Pretty awesome service and for a dollar is definitely a bargain :) Pretty awesome since not many average users will expect anything wrong with the file ... enable macro and boom infected... simple as that. HQ user and definitely recommended that you try out his service. Awesome guy and has good patience

Second Vouch [x] ?uup'? W?'†

Third Vouch []

DISCLAIMER: I AM NOT SELLING THE BUILDER FOR 1\$, I AM SELLING BUILDS.

ALSO, MAKE SURE YOUR EXE IS FUD. JUST BECAUSE THE METHOD IS FUD, DOESN'T MEAN THIS WILL AUTOMAGICALLY CRYPT YOUR EXECUTABLE.

DISCLAIMER 2: I can only push exe ~60mb and lower, nothing higher.

THANKS ALL!

PS. IF YOU CAN'T PM ME, THEN POST BELOW

UPDATE:

I have created a new template for the spreadsheet design, you can see this below!

Spoiler ([Click to View](#))

I have also used RLTO to spoof the extension to xlsx!

Yes. Yes it is. The Builder I wrote uses the VB section of the Office Suite to drop and run a file.

Please watch the video in the beginning of the thread. It drops the file and runs it after the user enables macros/vb

Hence the template.
