[align=center]How does the method work?

This method will teach you how to use the system of gambling websites and gain some good profit out of it. You will NOT be making the money from putting money on bets, actually, you'll be losing a little bit of your money before you start earning. I won't go into details, if you're really interested, feel free to contact me.

What are the requirements for this method?

The only main requirement is some money to invest, that's all. The other requirements are:

- Time
- Patience
- Some brain cells (anywhere from 1+)

What? Risk-Free Gambling? That's not possible.

Risk-Free gambling is indeed NOT possible. However, gambling with our method is risk-free. Huh what? Yes, your investment is safe using our method. Don't worry.

What is the calculating machine?

The calculation machine is a simple file, you will be using the file to calculate your losses/profits and so on. It's a really good way to make this method semi-autopilot, and it saves you from a LOT of work.

PS: The calculation machine is only available for the Advanced Package.

This just seems like matched betting which is incredibly common and available free throughout the internet? Don't get why you'd charge if it's matched betting..

Matched betting is where you use free bet offers and then lay them on the exchange, i never said you make money of bets themselves.

Ask any of the people who got a vouch copy. It has nothing to do with matched betting at all. I guess you're thinking of matched betting because of the calculating machine?

No need to delete your posts by the way, you were just asking questions, nothing to hide here. ?

Royal Bash - June 14, 2016, 5:44 pm

This is my official review of Zelix's Gambling Exploitation method.

I've got this method for a week now, Zelix & I have actually been using the method (until some Dutch laws were fucking us over with taxes when cashing out, lol) and this is my review.

1. The Method

The method itself is simple, it's easy, anyone can do it, but it's working, and that's the most important thing. Basically, what you need is an investment (the bigger the investment, the bigger your profit), a gambling website, place some bets and make sure you can get paid out.

2. The videos

I was really happy to have videos with explanation instead of e-books, you can follow the method step by step and see how it's been done without having to ask someone for screenshots, screensharing or whatever. There are more than 20 videos in the package, and they're like 400MB in total. HQ!

3. Saturation

Honestly, the method can't get saturated, BUT, it can get harder if a lot of people will do the same thing, so, my tip: keep this for yourself and go earn some good money!

I rate this method a 9/10, why? Well, this is one of the first methods I've seen that's actually working, I made my first \$300 already, (with some help of Zelix starting it up). I will try to do the method again, but with BitCoins instead, should be a little bit harder (not harder, but it will take some extra time to profit), but I will try it asap. I also love the videos, and I think more people on HF should use videos instead of those simple e-books.

Good job on this Zelix, and thanks for letting me be one of the first people to try this out.

PS: Will update with new payment proof soon!

Inn Active - June 14, 2016, 6:26 pm

If this works then people should cop this method ASAP since the next NBA Finals game might be the end... And the bets for that game are probably going to be \$\$\$\$\$\$\$\$

Let me first say that I didn't knew this user before, and my vouch is only based on my honest

opinion.

So with that out of the way, Zelix gave me a vouch copy and I must say that this is the BEST method I have ever seen. It will require time and an initial investment, but the results will be amazing!

Uniqueness

I have personally NEVER seen a method like this before.

Quality

As said earlier, the content of the method is amazing. This is definitely not just the average "Make 1k a day" method. As I said, it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

Saturation

For as far as I can see this can never be saturated. So you don't have to worry about that when purchasing.

Difficulty

The method is fairly easy, but I do recommend to go with the full package as especially the pre-made calculation system is a very nice thing to have!

Overall

A great method to say the least. If you want to make some money, go buy your copy today!

I really can't say more about the method without giving things away.

Awesome job Zelix, goodluck with the sales!?

This sounds a lot like arbitrage betting, which isn't to say it's a bad thing but it is very publicly known.

I assume this is similar to what your 'calculating machine' does:

I was one of the few to receive a vouch copy of this method and here's my more in-depth review.

Firstly, this is not an eBook, you receive 20 videos with full commentary guiding you from the very start to the very finish, making it very easy to follow.

The method itself, I haven't seen anything like it before, and when he says it's risk-free, it genuinely is. At first I didn't really understand it but Zelix soon explained and I instantly understood it all.

I'm in the process of attempting the method myself now and I look forward to the results.

I can honestly say you won't regret buying this!

Hey mate.

It's funny how you think, but let me explain it.

First of all, Vanilla contacted me to get a vouch copy on my method, I did NOT know him before. He asked me to review his method cause he trusted me for the fact that he has my method too, so if I would leak his method he would leak mine, his method is really private, and he doesn't want it to get saturated, so that's why he chose me.

Also, I picked like 4 or 5 people to review this method, and I have proof enough for that, so your point is invalid.

Thanks.

This works worldwide. I'm also providing free HQ Socks5 proxies if needed.

Nothing, just an investment and some time.

Yes, if your gambling website accepts PayPal.

Yes, you can use the autobuy and pay with PayPal or Bitcoin.

Well, 1. In my country I'd have to pay taxes over my income, I can't earn anything online cause they're going to start an investigation. That's why I sell all of my projects. 2. I am busy in real life, and in need of money, I don't have the time to invest my money over and over again, otherwise I'd have invested all of my money. 3. I am already doing this with like \$150

Also, no, the method gets easier every time you do it. No friends need to be involved.

I bought This Method yesterday and i can state so far

As Marjin' said :That the content of the method is amazing and 100% risk free . This is definitely not just the average "Make 1k a day" method. it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

I'm in the process of attempting the method myself now and I look forward to the results with the

help of Zelix .

i'll update asap with payments proof in the next days !!

(Jun 14, 2016 05:44 PM)Royal Bash Wrote: [\[CITE\]](#) This is my official review of Zelix's Gambling Exploitation method.

I've got this method for a week now, Zelix & I have actually been using the method (until some Dutch laws were fucking us over with taxes when cashing out, lol) and this is my review.

1. The Method

The method itself is simple, it's easy, anyone can do it, but it's working, and that's the most

important thing. Basically, what you need is an investment (the bigger the investment, the bigger your profit), a gambling website, place some bets and make sure you can get paid out.

2. The videos

I was really happy to have videos with explanation instead of e-books, you can follow the method step by step and see how it's been done without having to ask someone for screenshots, screensharing or whatever. There are more than 20 videos in the package, and they're like 400MB in total. HQ!

3. Saturation

Honestly, the method can't get saturated, BUT, it can get harder if a lot of people will do the same thing, so, my tip: keep this for yourself and go earn some good money!

I rate this method a 9/10, why? Well, this is one of the first methods I've seen that's actually working, I made my first \$300 already, (with some help of Zelix starting it up). I will try to do the method again, but with BitCoins instead, should be a little bit harder (not harder, but it will take some extra time to profit), but I will try it asap. I also love the videos, and I think more people on HF should use videos instead of those simple e-books.

Good job on this Zelix, and thanks for letting me be one of the first people to try this out.

PS: Will update with new payment proof soon!

(Jun 15, 2016 10:34 AM)#Martijn Wrote: [\[CITE\]](#) Let me first say that I didn't knew this user before, and my vouch is only based on my honest opinion.

So with that out of the way, Zelix gave me a vouch copy and I must say that this is the BEST method I have ever seen. It will require time and an initial investment, but the results will be amazing!

Uniqueness

I have personally NEVER seen a method like this before.

Quality

As said earlier, the content of the method is amazing. This is definitely not just the average "Make 1k a day" method. As I said, it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

Saturation

For as far as I can see this can never be saturated. So you don't have to worry about that when purchasing.

Difficulty

The method is fairly easy, but I do recommend to go with the full package as especially the pre-made calculation system is a very nice thing to have!

Overall

A great method to say the least. If you want to make some money, go buy your copy today!

I really can't say more about the method without giving things away.

Though my mind is still a tad fucked up from taking to much dmt the other day, and it being 4:00 am, it is quite sophisticated. I have dealt with Zelix previously and he is quite ingenious; and it truly shows in this method. From what I know so far, this cannot be saturated. You will most indefinitely make profit from a small investment. I will update my comment as I begin to dig deeper into this. (I was joking either about dmt haha)

Where did I say that I already sent you the product? Look at all my other customers, no one complained, you're the only one. I won't send the product until you close the dispute, why would I send a product without having the funds?

Just let me know when you're ready to close the dispute and I'll have no problems dealing with you at all.

Also, the reason why I didn't reply is because I totally forgot about you because of my testweek. Why would I scam 1 customer if more than 10 customers already bought this?

Is this arbitrage betting?

Don't want to sales trash. But there are only 3 ways of making risk free profit betting:

1. Matched Betting
2. Arbitrage Betting
3. Insider Trading
4. Offering tips for affiliate commission (You give bullshit bets and people sign up using your referral

link)

For the layman, the 4th version is probably the most profitable.

There is another way, which gives a high probability of making profit, but isn't strictly speaking risk free:

Expected value betting

And I don't recommend this for anyone without a decent command of statistics and ability to quantify error.

All of these methods are public, and these are the only ways of making risk free profit betting.

If I'm wrong please show me how.

Dutch laws were fucking us over with taxes when cashing out, lol) and this is my review.

1. The Method

The method itself is simple, it's easy, anyone can do it, but it's working, and that's the most important thing. Basically, what you need is an investment (the bigger the investment, the bigger your profit), a gambling website, place some bets and make sure you can get paid out.

2. The videos

I was really happy to have videos with explanation instead of e-books, you can follow the method step by step and see how it's been done without having to ask someone for screenshots, screensharing or whatever. There are more than 20 videos in the package, and they're like 400MB in total. HQ!

3. Saturation

Honestly, the method can't get saturated, BUT, it can get harder if a lot of people will do the same thing, so, my tip: keep this for yourself and go earn some good money!

I rate this method a 9/10, why? Well, this is one of the first methods I've seen that's actually working, I made my first \$300 already, (with some help of Zelix starting it up). I will try to do the method again, but with BitCoins instead, should be a little bit harder (not harder, but it will take some extra time to profit), but I will try it asap. I also love the videos, and I think more people on HF should use videos instead of those simple e-books.

Good job on this Zelix, and thanks for letting me be one of the first people to try this out.

PS: Will update with new payment proof soon!

So with that out of the way, Zelix gave me a vouch copy and I must say that this is the BEST method I have ever seen. It will require time and an initial investment, but the results will be amazing !

Uniqueness

I have personally NEVER seen a method like this before.

Quality

As said earlier, the content of the method is amazing. This is definitely not just the average "Make 1k a day" method. As I said, it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

Saturation

For as far as I can see this can never be saturated. So you don't have to worry about that when purchasing.

Difficulty

The method is fairly easy, but I do recommend to go with the full package as especially the pre-made calculation system is a very nice thing to have!

Overall

A great method to say the least. If you want to make some money, go buy your copy today!

I really can't say more about the method without giving things away.

would your method just work on some particular sport or can it be applicable for other games like live casino / greyhound / horses?

If you don't mind my asking, what is the ideal investment needed for this?

Zelix - June 26, 2016, 3:46 am

Hey guys,

My customers recommended me to higher the price, cause they think I'm selling this cheaper than what it's really worth. The 25% discount is disappearing from now on and the price will be \$97.99 again (normal price without discount) until I higher the price to \$124.99 in a few days.

A lot of reviews and payment proofs of new customers are coming. ?

\$50 is possible but a little bit hard, \$100+ is fine.

He already said it isn't, bro. It's something unique, people have asked about a lot of public methods and it isn't any of those.

However, I have a question for the seller:

Let's say I buy your method and I start doing it. How long would it be before I actually receive a profit. Let's say I invest \$100, for example. What average amount of time would it take for me to get my \$100 back and another \$100 on top? Infact, I saw somebody say they made \$1,500 in a week - is this easily done or does it require a lot of time. The only reason I ask is because I have a job too which takes up a lot of my time, but this seems promising. I hope to hear from you about this. Thanks.

My Review

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

gex231 - June 26, 2016, 2:07 pm

Just bought the method and here is my honest review.

The method will genuinely work, there is a 100% chance that you will make great money with this. With that in mind, you can expect a minimum of 300% profit in 1 month.

But since this is an honest review, I must admit I am a little disappointed. This is not because it won't work because it will and does work. And neither will it ever become saturated.

The reason why I am disappointed is simply because it is something most people who have delved into gambling will know about. Which I did.

Of course this method explains exactly how to abuse this a lot better than I could ever have imagined myself, but it's still disappointing how that was what it was.

For anyone who plans to buy this, I can guarantee you if you put some effort in, you will earn at least 300% profit in 1 month.

Thanks again.

(Jun 14, 2016 05:44 PM)Royal Bash Wrote: [\[CITE\]](#) This is my official review of Zelix's Gambling Exploitation method.

I've got this method for a week now, Zelix & I have actually been using the method (until some Dutch laws were fucking us over with taxes when cashing out, lol) and this is my review.

1. The Method

The method itself is simple, it's easy, anyone can do it, but it's working, and that's the most important thing. Basically, what you need is an investment (the bigger the investment, the bigger your profit), a gambling website, place some bets and make sure you can get paid out.

2. The videos

I was really happy to have videos with explanation instead of e-books, you can follow the method step by step and see how it's been done without having to ask someone for screenshots, screensharing or whatever. There are more than 20 videos in the package, and they're like 400MB in total. HQ!

3. Saturation

Honestly, the method can't get saturated, BUT, it can get harder if a lot of people will do the same thing, so, my tip: keep this for yourself and go earn some good money!

I rate this method a 9/10, why? Well, this is one of the first methods I've seen that's actually working, I made my first \$300 already, (with some help of Zelix starting it up). I will try to do the method again, but with BitCoins instead, should be a little bit harder (not harder, but it will take some extra time to profit), but I will try it asap. I also love the videos, and I think more people on HF should use videos instead of those simple e-books.

Good job on this Zelix, and thanks for letting me be one of the first people to try this out.

PS: Will update with new payment proof soon!

(Jun 15, 2016 10:34 AM)#Martijn Wrote: [\[CITE\]](#) Let me first say that I didn't knew this user before, and my vouch is only based on my honest opinion.

So with that out of the way, Zelix gave me a vouch copy and I must say that this is the BEST method I have ever seen. It will require time and an initial investment, but the results will be amazing !

Uniqueness

I have personally NEVER seen a method like this before.

Quality

As said earlier, the content of the method is amazing. This is definitely not just the average "Make 1k a day" method. As I said, it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

Saturation

For as far as I can see this can never be saturated. So you don't have to worry about that when purchasing.

Difficulty

The method is fairly easy, but I do recommend to go with the full package as especially the pre-made calculation system is a very nice thing to have!

Overall

A great method to say the least. If you want to make some money, go buy your copy today!

I really can't say more about the method without giving things away.

Awesome job Zelix, goodluck with the sales!?

I am getting the idea of the method and I am getting better and better in it, I hope I will be able to double my investment with at least 300% the next time. I will keep you guys updated again.

Thanks Zelix for offering me the method, I really appreciate your help, you did a lot for me. If there's any way to pay you back, let me know.

Firstly, this is not an eBook, you receive 20 videos with full commentary guiding you from the very start to the very finish, making it very easy to follow.

The method itself, I haven't seen anything like it before, and when he says it's risk-free, it genuinely is. At first I didn't really understand it but Zelix soon explained and I instantly understood it all.

I'm in the process of attempting the method myself now and I look forward to the results.

I can honestly say you won't regret buying this!

Hey mate,

First of all, I don't think you will be spending more than 30 minutes a day on this. Second of all, it depends on your investment, you will earn anywhere up to 190%.

Vouch for Zelix and his products. HQ as always!

R.I.P - June 28, 2016, 1:17 am

I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a couple days, so that's insane.

You don't need to open a foreign currency bank account.

You can simply deposit/withdraw using your own credit card (Bank).

I am not 100% sure, but it would surprise me if you couldn't.
As bank payments can be done all over the world.

Yes you can use sites with BTC, HOWEVER --> It's harder to use the method with BTC only, and I will not give you a refund if it doesn't work out for you when using BTC cause the method IS working, it's just harder to do with BTC.

The method is indeed still working and it will stay working for a long time, however, if you're from the USA, I'd only buy this method if you're sure you can DEPOSIT MONEY on gambling websites. (that's the biggest problem USA users have)
