Terms of Service:

Spoiler ([Click to View](#))

1. I, [[illuminati](#)], will not be held responsible for anything that happens AFTER the completion of the deal that had me as the middle man. This includes any (attempted) scams that might have happened after the money exchange. This includes not using my name in scam reports.
2. All deals will and shall be completed on-site, via private message. I will not use any form of Internet Messaging [IM] Service (Skype, XMPP, Discord, MSN, etc.) unless I make an exception.
3. I will be able to deny any requests made by users of this or any other website without providing any specific reason. This term applies BEFORE a deal.
4. Deals made can be rejected with early consent to me and the other party BEFORE the deal is completed.
4. Any deals done through me will automatically comply under my rules and terms of service.
5. Changes to the ToS will be done without any discretion, unless done while a deal is under place.
