Thread: [Perm Skype Ban](#)

Seasonal - June 16, 2016, 7:30 am

Simple as thread subject says. I know that someone was offering this but now has closed their thread.

I'm aware there are multiple threads on how to do this out there for free and other shit, but I rather just pay someone to do the method as I cba to do it.

It must be a perm ban, not a "temporary"

I will be paying with either BTC or Paypal.

Not paying above \$25 for this either.

I will pay afterwards (since various messaged me last time and none of them completed it) or we can use MM.

I had no idea you could get banned from Skype.
