Thread: [Codethis.net](#)

hairypets - June 16, 2016, 11:51 am

Hey guys.

Right now I am leading a huge project, aiming to offer a freelancing website for coders like you. You would be able to find this at www.codethis.net

Hopefully we will be finishing during the summer.

You can either post a job looking for a coder or bid on a job as a coder. The system will be the same as any other ordinary freelancing website. The website is going to offer anything in the coding industry from gaming programmers to website developers.

Although I can not give too much information at this stage, I'd like to see what you guys think about it. The website is not 100% done, there is still a lot of work to do.

Please could you kindly leave suggestions, although there is not much to review. We would really appreciate it! Maybe you guys have any ideas.

Thank you!

Mino - June 16, 2016, 11:53 am

If you ever need support staff let me know and I can help you with that :)

Good luck OP, however the template non ready page looks like wix

hairypets - June 16, 2016, 12:02 pm

I couldn't say no :) I will pm you.

It's just a temporary page ;) It's not wix though.

RumbleFrog - June 16, 2016, 12:04 pm

I'm very interested in this :)

hairypets - June 16, 2016, 12:12 pm

(Jun 16, 2016 01:22 PM)TTiger Wrote: [\[CITE\]](#) Vouch for this user. He is making my website as well, and it is brilliant. This project has a real future. Hes very HQ and a great guy, good luck bro!
Ay thanks.

Any suggestions guys?

Rich04 - June 17, 2016, 8:24 am

Looking good Can't wait to see the finished product

hairypets - June 17, 2016, 10:00 am

Neither can I tbh.
Let's hope it goes well ?

Rich04 - June 17, 2016, 11:11 am

Good Luck with it hope all goes well

Thanks, I appreciate it. ?

RumbleFrog - June 17, 2016, 5:24 pm

If you need help, PM me, as I'm web developer myself

Squidward - June 17, 2016, 5:26 pm

poorly coded web page.
bad english as well - "However this project is yet to be completed during the summer."

SIM-2323060 - June 18, 2016, 4:24 am

You show, your project unfinished, what is the funny here? Before Posting your website, finish him.
you'll spend the idea that your project is scarce and incomplete.

Before finish it, after you publish this on forums,blogs..
Now it's a kinda useless see website with "We are coming soon!" this will not call no one.

How u think you go attract more people with maintenance page?
Sorry, man only my opinion.. I Respect your project, and I respect you with member.. but be realist

hairypets - June 18, 2016, 8:34 am

I am changing the language so it makes sense. Thank you for telling me.
Hopefully this small error have a bad reputation on the website.

And I do not understand what you mean by "poorly coded web page"

Okay, thanks for taking your time to tell me your thoughts, but I mentioned in the thread that it is an

upcoming project, and that I wanted peoples thoughts and suggestions.
If you could take your time to read the thread, it would be greatly appreciated.

Thank you

Polasi - June 19, 2016, 2:20 am

If this turns out well, I'll offer my stuff there.

Stealth™ - June 19, 2016, 2:22 am

If it turns out well, I'll offer my services.

I'll have my first Java certification by next weekend :)

hairypets - June 19, 2016, 2:31 am

Thank you!

And congratulations :)

We are actually open to a website developer helping us finish this site. Although I am talking to a couple right now, maybe you could pop me a pm. Thanks

Nick - June 19, 2016, 8:18 pm

I'd be willing to step in as a staff member as well and maybe learn a few things!

hairypets - June 20, 2016, 1:04 am

I assume you mean support staff?

Still interested in what people think!

hairypets - June 22, 2016, 12:16 pm

Looking for more of a back end developer

Brewin - June 22, 2016, 1:16 pm

Can't wait to see what it's like when it's finished. Good luck with the website OP!

XeBrizzle - June 23, 2016, 3:17 am

Looking awesome man! Can't wait to see the full thing once it's done.

7 - June 23, 2016, 4:07 am

Looks like a good project. I was planning one called technicalcode.com but i prefer your name now anyway.

hairypets - June 23, 2016, 11:36 am

Thank you everyone for the opinions!

Hopefully we can find someone to help us finish, and it all goes well.

InjectorBoy - June 23, 2016, 6:53 pm

nice thx for your work ^__^

We've been working hard to set up this company!

hairypets - June 27, 2016, 11:31 am

Any suggestions from anyone?

TheGGatsby - June 27, 2016, 10:27 pm

Great, i didn't like the logo tho it has no outstanding idea, Good luck!

hairypets - July 1, 2016, 8:54 am

Thanks, we tried to go for a simplistic logo which could be memorable.

Do you have any recommendations?

I don't have an idea at the moment, you can use flat design for your logo, and some bright colors like red or a little dark green. google some flat logos and you will see, Keep us updated and good luck !

Thank you! I like the idea. I sure will discuss this with the team.

gl with whatever you do too!

hairypets - July 6, 2016, 12:48 pm

Any more suggestions?

Would appreciate it. Thanks

Effix - July 6, 2016, 5:07 pm

This shit is dope af, love ur work man

(Jul 7, 2016 06:22 PM)AngryDeveloper Wrote: [\[CITE\]](#) Good luck! Hope all goes well.

Thank you.

We are currently having the site constructed. Will post sceenshots of what the website will look like as soon as possible!

hairypets - July 11, 2016, 7:05 am

Would still appreciate recomendations. Thanks!

hairypets - July 25, 2016, 2:33 am

Starting development. Functionalities are being done!

moosa666 - November 1, 2016, 12:26 pm

concept is great i tried hire freelancer way to complicated i closed my account in a week hope ures will be better

Swip3r - November 1, 2016, 4:06 pm

Yeah like mentioned above I'm liking the concept a lot, the only real question is can you actually pull in potential buyers.

Rushax - November 1, 2016, 4:53 pm

Don't forget to have a favicon :)

Also I think it would be easier (from personal experience) to set up the site with HTTPS first, then carry on developing. Can take ages bringing a site to HTTPS from a finished stage whereas it's just part of the development process if you've already enabled it before.

GL, will join when its up & running.
