Thread: [Scammed by Arm4L1t3 \(UID=1098690\) and IG Sellers \(UID=3158127\)](#)

Danny Khalifa - June 16, 2016, 9:53 pm

So, today I had to exchange 21\$ USD paypal to BTC.

I received a PM from a guy, which told me he will exchange that and we will use as a middleman Arm4L1t3, I checked arma's reputation and trustscan, all seemed legit.

Well. He got me on 21\$.

So, here are all the proofs.

I think IG Sellers is a friend of Arma or even the same guy, because when Arma was replying, IG did the same, I mean, they weren't talking in conversation.

2 Hours passed, he still is ignoring me on skype, and he said " Sending payment " passed 1 hour and he didn't sent anything.

Looks like a legit scam report. Hopefully you get your BTC or at least a refund.

Who scams over \$21 dollars? lol.

EDIT: Read the whole thread to understand.

I will call PayPal incase he doesn't refund me the payment or send the BTC.
Which I doubt he will.

Good luck with it, not sure what PayPal will do in this case because it was Friends and Family.

Sorry for your loss mate! The people that cant be trusted with a few dollars will never be worth anything in life. How wouldn't they you may ask? How would anyone who steals \$21 ever get the opportunity to get near an good amount of money when they're so dishonest.

V For Vendetta. - June 16, 2016, 10:01 pm

I don't think that's the real Arma's skype. I have his legit skype and they don't match.

Danny Khalifa - June 16, 2016, 10:01 pm

I am not really that surprised as how few of HackForums members are, really low life. Scamming for that low amounts.

I will call paypal and try to get my money back.

Bro, he sent me a PM in hackforums, and it's him.

How could not be him? He said " Danny you got it " I checked my pm's and I got the PM.

V For Vendetta. - June 16, 2016, 10:02 pm

Yeah fake scam report, the skype username in the PM and on skype do not match.

TheChi?f - June 16, 2016, 10:03 pm

I am sorry for your loss buddy. If you carefully look, he is himself the impostor when he confirmed the deal through HF PM.

V For Vendetta. - June 16, 2016, 10:03 pm

Danny, the skype in the PM was different than the one in the image.

Yeah bro, I noticed that it's 3 and not "e"

But, how could that be not him? He told me " Danny you got it " (meaning the Private message) And I got the private message from him confirming the deal over skype.

Maybe he didn't wrote his skype correctly or I don't know, but there's no way he told me " Danny you got it " and i got the pm in the same time from him, saying he is middlemaning thea deal.

Arm4L1t3 - June 16, 2016, 10:30 pm

I just PM'd you earlier with my Skype name saying I was going to middleman the deal, and you never responded to me?

Edit: Looking at the pictures you put, that's not even my Skype. I even PM'd you with my Skype details just to be sure.

How came there is the group conversation and you said you pm'ed me and right in that minute i got pm from you in HF?

It looks like Amaze scammed you, not me. You never added me on Skype, I was just told I was middlemanning for the trade so I PM'd both of you. I even put my Skype name in the PM to confirm it.

I still don't get it how the hell I got the pm right when "THE IMPOSTOR" said " Danny you got it " Right in that minute lol.

Sounds pretty sketchy to me to be honest.

You could have checked to make sure the skype was the same though. Even if "the impostor" was this guy you still shoulda checked to make sure they were the same skypes.

Right in that minute lol.

Sounds pretty sketchy to me to be honest.I have my Skype logs.

He told me to PM you confirming that I was going to MM the trade, which I did. He asked me to do the deal earlier too. And look, that's my BTC address in the picture, not whatever you sent it to.

I can even take a picture of my address to show I didn't get anything if you want.

And no, he's not my "friend". We had some deals on HF before and he just asked me to MM a trade, and I said sure. I didn't know he was going to scam you though, otherwise I wouldn't have agreed to it.

Gt403cyl - June 16, 2016, 10:56 pm

I'm not going to say anything other than the Skype you have in the original post is not the Skype I have for Arm4L1t3.

I have been chatting with Arm4L1t3 regularly for the last 4-5 months and to my knowledge that isn't his Skype.

If I had to wager, I would bet this guy <https://hackforums.net/reputation.php?uid=3158127> added someone (imposter) to the Skype chat and scammed you.

Just my opinion given the evidence you posted and the Skype I see Arm4L1t3 on.

I mean did you check his rep and trust scan?

Next time danny do a code verification. like 11111. or something then you can weed out the imposters.

I think using this would be a better option.
