Don't really commend Hentai often but the plot for this anime was pretty darn good. I enjoyed it and I recommend it!

Be warned, opening scene is pretty fucked up but other than that it was great :D

I've enjoyed watching this a few times. It's actually pretty good.

If you want something with a fun story I've heard that the Rance series(eroge, not the shitty hentai) is pretty good.

I enjoy a good hentai every once in awhile but this is not for me holy shit.

Vip?r - June 17, 2016, 1:49 am
