Thread: [Scammed for \\$30 by Dark | UID 2025980 |](#)

iKinky - June 17, 2016, 4:05 am

This thread is in regards to his Overwatch account service:

[\[SELLING\] \[50% OFF\] Overwatch/ Overwatch Origins Edition \[PC\] \[LOTS OF STOCK\]](#)

Dark's profile:

<https://hackforums.net/member.php?action=profile&uid=2025980>

Amount scammed: \$30

Other known scam report(s):

<https://hackforums.net/showthread.php?tid=5292176>

Date of purchase: May 28th

Additional information:

Before you ask why I purchased with the other scam reports he has open; I bought the account before the reports. I paid \$30 for the Overwatch Origins Edition. \$30 isn't a lot of money, I'm mainly doing this so others are aware. I say this because he has managed to get on almost every day, even with his "internet problems".

"Yo, so I posted a thread about my Overwatch accounts, was only expecting to sell a couple but the interest is crazy! Tons of people have purchased them from me and I have heard no problems yet." - a direct quote from the thread lmao.

He sent me an account that worked for about an hour. I knew something was fucked up when I checked the tab "payment settings" and there was a random card on it still. After about an hour I got an email that said "we were unable to complete your purchase..."

Messaged Dark after this happened and he gave me another account, repeat the process. Gave me a third account, not even an origin edition, and it stopped working later eventually as well. So his once "trusted" provider (more than likely Dark himself), is using illegitimate methods to obtain the accounts (such as ELV). Messaged him once again just looking for a refund. He then replied to me telling me that he was sorry, he had been using his supplier for years and nothing like this has ever happened, having internet issues, not to charge back and just give time, etc.

tldr - Got an account that was obtained illegally, didn't work, received two more duds. Can't refund due to some issues.

Actually he has 3 pages of scam reports dating back to 2014. Looks like a legit report though.
