So unfortunate man.

I have to go as far as adding people on Skype, just to see what they think about the guides on here. I've been burned by almost every ebook purchase with great vouches. Seems these people vouch

the person, instead of the material. (Ex: "Vouch. All of his things very HQ")

To OP: If you're reading this, is the method really autopilot? Set and forget?

I've been looking for a reliable spreading method for a while now, seems like dinosaurs and unicorns.

If you have any issues or have not received the product you purchased yet please contact the following email: h3godproducts@outlook.com

There is also a possibility that we will start accepting Skrill for payments which means you can pay with your credit card.

In the future we also plan to add Skype as a support option because it seems that we are losing emails randomly.

I can vouch for this (I know, on new account it doesn't say much) - but I had a massive herd using this method.

Zen is definitely the way to go.

Miniii - December 6, 2017, 8:51 am

Decent amount of well-written content. Discouraging to see a whole folder of guides with the prefix "Ineffective -" (not a single "Effective - " prefix)

Definitely not worth \$40 imo.

Definitely not worth \$40 imo. You read the wrong folder, or something was mixed up and you were sent the incorrect folder. Contact Vyrez to resolve this.
