Hello all,

Always wanted to increase your YouTube views? Or maybe increase your views on other websites like Twitch?

I share with you a epic and working "Views Increaser", I don't take any credits for making this. I am simply sharing this with the community.

ManyFireman - June 18, 2016, 12:26 pm

VT not for file, but website..

tojesus - June 18, 2016, 1:02 pm

Views on a video went up immediately. Virus scan showed nothing wrong. The program included a few useful features which I cannot say if they worked or not because I have not used them. Program does what it is intended.

yotoprules - June 18, 2016, 3:15 pm

Just curious how many views are you getting? like 100, 400, 1000?

It depends on how many different proxies you are using ;)

Here are some websites where you can get some free proxies:

<http://sslproxies24.blogspot.nl/>

<http://proxyserverlist-24.blogspot.nl/>

<http://newfreshproxies24.blogspot.nl/>

Of course paid/private proxies are the best, but free ones should do just fine.

You import a proxy list, you paste the URL you want to boost views on, put in the interval and hit start :D

UsedToKnife - June 21, 2016, 12:27 pm

Just got myself 2500 views in 2 hours :D

Frankey - June 21, 2016, 12:27 pm
