How long have you been playing games for?: Played my first vidya when I was 3 or so?

What's your favorite game?: I don't really have one, for the singleplayer side I really enjoy story heavy games where you make your own options and pick your dialogue like the Telltale games, Mass Effect games, Elder Scrolls series and the Fallout Series.

For multiplayer it has been high skillcap games where it takes a lot of time to truly master something and where you can constantly improve every single time you play, so stuff like CS:GO, Overwatch and APB: Reloaded had me hooked.

For MMORPG's, I played a lot of them. The only one I'm currently sticking to is Oldschool runescape with a couple of friends just for fun after burning myself out on BDO.

What platform(s) do you play on?: PC, do own a lot of consoles to but I rarely touch them unless an exclusive get's released.

Will you be dedicated to the group?: Yes.

Why should you be accepted?: I have a long standing on the forums, I have been in a lot of groups before so I know what is expected from me etc. I am also very passionate about gaming and I like talking about it which is the reason I'm looking for a group home where I can do so.

Febreze - June 18, 2016, 4:04 pm

What's your name?: Gerald, Febreze

How old are you?: 19

What country are you from?: United States

How long have you been playing games for?: Probably since I was 4 or 5, so 14/15 years, I started playing first person shooters on the N64. E.g. Rainbow Six, Perfect Dark, Golden Eye, Turok, Doom - to name a few. But I also played a shit ton of Super Mario, Mario Party, Yoshi's Story.. anything Mario, I've played at least once.

What's your favorite game?: I think I'd have to say Halo 3 for the xbox 360. I put so much time and effort into that game. I started playing it in 2008 until late 2012 I believe. I also really like Battlefield:Bad Company 2. My friends and I used to squad up all the time and go on massive winning streaks. Tactics are the key, my friend.

What platform(s) do you play on?: Playstation 4, Xbox 360

Will you be dedicated to the group?: If people are down to play video games with me on PS4(Black Ops 3, Battlefront, Destiny, Madden 16, NBA 2K16) then of course. I will be active within the subforum for Enigma and will proudly represent this group.

Why should you be accepted?: There are a few reasons, but the main reason is because I love video games. Another reason is because I am an active member of Hack Forums. A third reason would probably be because I am a committed human being and I have been training myself for this moment in time. I started out playing FPS' since I was very young and that's pretty much my favorite genre of video games. There's nothing better than coming home and relaxing and killing some scrubs. I am communicative and am always down to have some new gaming buddies!

Thank you for reviewing my application!

Formant - June 18, 2016, 4:08 pm

Good luck with recruitment!

I originally joined Dawn as a gaming group but that has since changed. I would like to contribute to

the gaming sub forums on behalf of a group so maybe you guys might be a good fit for me :)

I'll edit this post with an application on Monday or sooner if I can.

If you don't mind me asking, approximately how many people are you recruiting for this specific sector?

Good luck to everyone applying!

EDIT: It's Monday, so like I said, here is my application to the group:
Name:

What's up, my name is Eric and I go by Formant.

How old are you?

I am 22 years old, soon to be 23.

What Country are you from?

I am from the U.S., however I am currently located in Europe for work.

How long have you been playing games for?

This is actually an interesting question. I have been playing games for as long as I can remember. I grew up with older siblings and I was introduced to console gaming at a really young age. I think the first console I ever played was my older brother's Super Nintendo, and I actually still have it today. After that, my second oldest brother got a PlayStation 1, which I also still have. As a kid at a really young age, I was hooked. My love for console gaming has only continued to grow ever since I was a child.

What's your favorite game?

Hands down, my all-time favorite game is Halo 3 and I don't ever see that changing. After falling in love with the original Xbox, Halo 3 was one of the first games I picked up after getting a 360. I was 14 years old when I had pre-ordered it and I still remember the day I opened the Amazon package it was delivered in. As a casual gamer, I loved the game in every aspect. But then through playing the game, I discovered competitive gaming and learned about tournament play. This is when it started to get serious for me. Regular game settings weren't going to cut it for me any more. I found myself playing the MLG playlist nonstop and I fell in love with the scene. I also played the Call of Duty series on 360, but nothing compared to my Halo experiences. 9 years later, I still love playing Halo competitively and nothing can compare to playing competitive Halo 3 settings.

What platform(s) do you play on?

Xbox One ?

Will you be dedicated to the group?

This is a pretty easy question to answer. What is the point of being in a group if you aren't going to be active? If I'm accepted, I don't think I will have a problem being dedicated to the group. Especially if Enigma needs any Xbox nerds =]

Why should you be accepted?

Well, I originally joined HF for the Halo section to find people to play with in the summer of 2014. Ever since then, the community has pretty much grown on me and I expanded into the Xbox section and general gaming subforums. At this point, I feel that my journey on HF will continue in other gaming subforums, meaning that I think I would fit in to Enigma's gaming sector perfectly. Truthfully, there is no reason to accept me into the group, other than the fact that my sole purpose to join the forum was gaming related. If possible, I'd be happy to be able to contribute to the group's gaming sector.

Thanks for taking the time to read and consider my application! ?

Chase

How old are you?:
16

What country are you from?:
United States

How long have you been playing games for?:
I have been playing video games since I was like 4 years old to be honest!
Donkey Kong and Guitar hero used to be my shit!
It all started with my super hot babysitter who always wanted
to play me in some donkey kong, so I shown her my dominance
and how good I was, and I was hooked ever since.
So around 12 years.

What's your favorite game?:
Currently, Minecraft and CS:GO. #Typical
My favorite games were like MW2, BO1, and games like that.
However, with the new games, and new consoles..
Nobody really plays the old ones and so now I'm just stuck with old fashion PC games
or flying around shooting people with lasers in BO3.

What platform(s) do you play on?:
I play on PC mainly, however I also have a Xbox One :)

Will you be dedicated to the group?:
When you apply and join a group, that shouldnt be a question.
If you were not dedicated, it wouldnt be a group.
It'd be a userbar.
To answer your question, of course.

Why should you be accepted?:
I'm not better than anyone, a kid who loves games, loves games!
However, I will say that I will be super active and will tag along in a ton of stuff.
It's always fun having a good time playing some games with friends!
I would also love to host contest, or even wagers for us!
Maybe set up some servers on Minecraft or something ;)

Why should you be accepted?: I'm an all-round gamer. I can either be super-competitive or very relaxed and enjoying the game environment. I've been in the competitive scene of gaming since the runescape days back in 2010 (good ol' castle wars), also doing lots of 2k+ arenas in WoW and play League of Legends almost on a daily basis. Music, Art, Fishing and Gaming is what I live for. I have a deep love for MMO-games, I don't like single-player games that much. I want team-play whether it's relaxed or competitive does not matter to me.

Thanks for reading my application.

What's your name?:

Joey

How old are you?:

23

What country are you from?:

United States

How long have you been playing games for?:

Literally all my life, probably around 7 years of age, started with SNES, and have played nearly every console that's come out since then.

What's your favorite game?:

Xbox: Smite

PC: League of Legends

What platform(s) do you play on?:

Xbox One & PC exclusively.

Will you be dedicated to the group?:

100% dedication.

Why should you be accepted?:

I truthfully think I should be accepted because of the sole fact that I am entirely interested in getting in a group that actually has an active gaming sector and gaming community so I can link up with other people who play the games that I do competitively, tired of solo'ing every game I play because my IRL friends are asleep during my vampire hours of being awake.

What's your name?: Hello, my name is Ayden.

How long have you been playing games for?: I've been playing games all my life. It started with my first SNES, and it was amazing. I had games like Super Mario World, Star Fox, Donkey Kong Country, F-ZERO, and a lot of other great titles. Then as I got a bit older I got a gameboy color. I got my first pokemon game: Pokemon Pinball, which actually led me to end up playing every single pokemon game ever made, even the recent titles like omega ruby and AS. Currently waiting on the Sun/Moon release. Then I got a gameboy advance, ect, ect I kept getting the new shit. I also had a nintendo 64 and playing super mash bros and mario kart was the best thing ever at that time. I could really keep going because I had a gamecube, ps2, xbox, xbox360, ect. and have played countless great titles.

What's your favorite game?: This one is really hard for me to answer because I've played a lot of amazing titles, big and small. If I had to chose, I would have to say the dark souls series. I really love the challenge and the whole dark fantasy aspect of it.

What platform(s) do you play on?: PC[Master Race] but I also play on 3DS and compete in Super

Smash Brothers.

Will you be dedicated to the group?: Yes, I've been looking to join some kind of gaming group that will be active. I applied for sheeppgang and fusion but I've not heard anything back from them. I can bring a lot of interesting topics to the group as I am a developer myself.

Why should you be accepted?: I would like to believe I have a passion for gaming, and when someone has a passion for gaming they have a lot to talk about. I can bring lots of interesting threads to the group.

James.

How old are you?:

24.

What's your favorite game?:

Call of Duty 4 is my all time favourite game of all time.

What platform(s) do you play on?:

PC & Xbox One.

Will you be dedicated to the group?:

Very much so. I have yet to really get involved in the forum properly and I believe that joining a group like this will allow me to do so.

Why should you be accepted?:

Well I have a big soft spot for gaming especially the competitive side of gaming. It is a huge passion of mine and something I love to do. In the past I attended and played in several LAN events in the UK.

In 2011 I founded a website called ProSND that was dedicated to help people play competitive CoD 4 on console, years after the game had died. I was a big part of the cod console community and we had over 2000 people signed up to the forum in the first week. I managed it for about a year, and we organised tournaments every week. It gave me joy seeing people play the game they loved competitively again.

Unfortunately as the Xbox one came out the show was over. But with the recent announcement that Cod4 will be playable on the new console I am in the process of remaking the website once again.

I currently regularly play a variety of games on the Xbox and am always active but currently I play League of Legends the most.

I love helping people out and trying to make the gaming community a better more enjoyable place.

Thanks for taking the time to read this and I hope to hear back from you soon!

What's your favorite game?: Tough question but I have to go Super Mario 64 simply because I spent most of my younger childhood trying to master it and every second was worth it.

What platform(s) do you play on?: PC is where I spend most of my time usually on ArmA, dota 2 or an indie game. I do own a PS3, Xbox one and a couple of ds's that I still use but they are more for feeding my nostalgia.

Will you be dedicated to the group?: Yes. I don't plan on applying for nightmare.

Why should you be accepted?: I feel like most gaming sectors of groups or full groups have people

who like more modern stuff like CSGO or Fifa or whatever. While I still enjoy these games I feel I can bring a lot more vintage titles to the table as well as many indie games. I'd love to be apart of a community where i can share my love for these games and even learn about the titles other members like.

Thanks for reading.

What country are you from?: Australia

How long have you been playing games for?: I would say about 11 years, I significantly remember playing Grand Theft Auto 3 and Vice City on PS2 as a 4-5 year old.

What's your favorite game?: Although I have a lot of favourite games, I would have to say Battlefield 4 at the moment. As for all time, that would be Call of Duty: Black Ops 1.

What platform(s) do you play on?: I am purely a PC player as of 2015.

Will you be dedicated to the group?: I certainly will be, I understand the privilege of being in a group and will meet any and all requirements and responsibilities that it holds.

Why should you be accepted?: I believe I would be well suited to this group as I want to further my friendships with people on HackForums and want people to play more games with. I play a wide array of games and for any people from the US staying up late when no other people from the US are on and they want to play a game, I will be online due to the contrast in time zones.

How old are you?: 17

What country are you from?: Canada, eh?

How long have you been playing games for?: About 10 years. Kinda slowed down as of recently, focusing on school, got a job, etc.

What's your favorite game?: Mirrors Edge, but as of recently, Mirrors Edge Catalyst.

What platform(s) do you play on?: PC, but that's not limited to just windows, I've set up some Linux machines for small-time gaming. Also, I have a nice collection of emulators on my RasPi.

Will you be dedicated to the group?: Why would I be applying otherwise?

Why should you be accepted?: First off, I'm not gonna lie with you. I'm not a hardcore gamer, and I couldn't care less about any competitive scene. I'm very casual, only ever playing for fun. I used to play a lot of League, but when I realized my tilt was overpowering how much fun I had, I stopped. I play a lot of MMOs, notably RIFT, TERA, FFXIV, and some other Aeria games. I have great understandings of the workings of these games. You want macros? I'll help you make them. You want to know how to get the most DPS? I'll find where the best gear is with the best drop rate, then find a good rotation that will maximize it. This is for most MMOs, mainstream ones primarily, but some other less known ones as well. I can help there.

What else can I bring to the table? Well, as a casual gamer, I just take a step back from being competitive, so if someone's tilting really hard, I can help them get back into it, just help them get their mind off of the problem they're having.

Hey, thanks for reading over, have an awesome day!

How long have you been playing games for?: About 10 years. Kinda slowed down as of recently, focusing on school, got a job, etc.

What's your favorite game?: Mirrors Edge, but as of recently, Mirrors Edge Catalyst.

What platform(s) do you play on?: PC, but that's not limited to just windows, I've set up some Linux machines for small-time gaming. Also, I have a nice collection of emulators on my RasPi.

Will you be dedicated to the group?: Why would I be applying otherwise?

Why should you be accepted?: First off, I'm not gonna lie with you. I'm not a hardcore gamer, and I couldn't care less about any competitive scene. I'm very casual, only ever playing for fun. I used to play a lot of League, but when I realized my tilt was overpowering how much fun I had, I stopped. I play a lot of MMOs, notably RIFT, TERA, FFXIV, and some other Aeria games. I have great understandings of the workings of these games. You want macros? I'll help you make them. You want to know how to get the most DPS? I'll find where the best gear is with the best drop rate, then find a good rotation that will maximize it. This is for most MMOs, mainstream ones primarily, but some other less known ones as well. I can help there.

What else can I bring to the table? Well, as a casual gamer, I just take a step back from being competitive, so if someone's tilting really hard, I can help them get back into it, just help them get their mind off of the problem they're having.

Hey, thanks for reading over, have an awesome day!

That's always a charming way to end an application.

How long have you been playing games for?:

The amount of time I've been playing games for is ever since modern warfare 2 first came out. So around 2009, although that was my first time playing console games. Ever since I was like eight I've been playing on my gameboy advance beating Pokemon emerald and too many games to name. After that I was able to obtain a PlayStation 2 and started my grind there like a year before I found out about modern warfare 2 and multiplayer.

What's your favorite game?:

My all time favorite game hands down would have to be Ratchet and Clank, although that game I spent way to many hours just beating it over and over again. Speaking multiplayer terms though it would have to be Modern Warfare 2, grew up on that game spending like ten hours a day just playing it having fun.

Steve - July 12, 2016, 11:55 pm

What's your name?: Steve

How old are you?: 21

What country are you from?: USA

How long have you been playing games for?: Probably about 15 years. Started out with a lot of N64 and Gameboy Color.

What's your favorite game?: Halo 3 by leaps and bounds. Halo 3 was the first game I ever played on the Xbox 360 (coming from Gamecube). I had never played a game so complex and with such an interesting lore. I loved every aspect of that game, and it has actually impacted my life. It sounds cheesy, but I have some life goals that I know I would not have if it weren't for Halo 3/Bungie. I am actually in the middle of going through and watching all of the Halo 3 MLG tournaments and I can tell you the nostalgia is real. I had 50 in Slayer, Snipers, Swat, and Doubles (all with randoms, I didn't have a team/partners), 47 in Lone Wolves and 43 in MLG.

I also actively play Runescape. My account is over 10 years old and has 210+ days played on it, so despite my love for Halo 3 I probably have logged more time on RS.

What platform(s) do you play on?:

Xbox One

Will you be dedicated to the group?:

Yes. I will be dedicated to the gaming group.

Why should you be accepted?:

I'm very competitive and would love to compete in some MCC tournaments, and am open to playing new games. I have been very active on this forum lately and would like to say that I am a well-liked and trusted member of the community.

Thank you for your consideration.
