Thread: [eBay money made in spare time.](#)

Made some half decent cash for someone who does in my ebay spare time, this is in two weeks.

for those wondering what this is in USD it's \$670, not bad for two weeks profit i think.

Edit* I started this method just under two weeks ago.

I'm sure this is just re-selling something, which isn't bad but I don't think its much to brag about unless a decent amount of that is profit.

I hope this thread is not another thread that leads to a "private method" thread

Good job OP! I've recently took on eBay as a side hustle as well and I've been putting in work. Glad to see other people shining.
