Thread: [LoL Accounts, Selling Individual Accounts, or being a personal dispenser!\(Un/Verified\)](#)

'OverSight - June 19, 2016, 11:04 pm

Alright, I wanted to start this service in a way that you just need to pay me a small lifetime fee of 10 dollars (BTC from all, PP from trusted) where I will crack a fresh batch of accounts upon request that will not be given to anyone else.

So what you will receive from me:

- A form of contact to me, either discord, skype, or tox.
- Maybe about 30 accounts max per day, I'm not sure yet but I will crack as much as time allows me to. (Just don't go overboard with me and have me do 1000 in less than 3 days lol.)
- I will make a separate batch just for you that no one else should have. (thinking of other crackers)
- Primarily verified accounts, but I do get unverified that is what you are really looking for. They are somewhat rarer now but I will drop them in for sure.
- I will link you to a checker for your accounts.

What is this great for?

- Not having to buy accounts from sellers that charge .50 cents or even a dollar per account.
- Scripters that don't want to get banned from buying smurfs that are almost 20 dollars an account and just would like to boost their friends and not wanting to get banned 2 months later.
- Saving money in the long run.

Price: 10 Dollars. (PP/BTC)

I'm aware that people are looking for unverified accounts atm on HF and no one is selling them. Most people won't because they're too valuable and want to keep them for themselves. Well, I'm slowly moving out of league and Overwatch is consuming me xd.

ATM: Only NA but I can do other regions upon request.

New: I will do 1 dollar an account as a separate service for those not looking for something lifetime like this.

Note to resellers:

I can crack a lot of accounts but I think I will have to charge 20 dollars as it takes time away from the people who don't want too many accounts at the same time.

Terms of Service:

- I reserve the right to refuse service of anyone.
- When you use these accounts, I highly recommend you play with a VPN.
- Chargebacks will result in a scam report. (lol why)
- I reserve the right to suspend the service temporarily due to real life issues.
- I will not provide refunds if Riot changed the way they handle account security. At this point, other

crackers more than likley will have to stop just like me.

Autobuy is really confusing for something like this, so please PM me!

To mods and staff: I am not sure if this falls under NFA or Services as I think most people looking for these accounts in this section. If that is a problem, please move me and I apologize. I really do think this is a really weird thread to place. I'm technically not any different from an account dispenser.

Any other way of payment?

What do you have in mind? Anything else is probably is going to be new for me but I'm willing to try it out.

Zexo - June 19, 2016, 11:09 pm

This is pretty tempting so you will just keep sending accounts? and will they be shared?

clean4d - June 19, 2016, 11:10 pm

I ment any other payment as in things that are valued about 10\$.

Example:Steam Accounts,LoL accounts etc.

Yes, so in short, just send me a message and I'll crack some accounts for you. Each person will get a set of cracked accounts that I just cracked and no one will get the same set. So no sharing.

I don't really get what you mean by accounts per day.

If I give you 10\$, will I get accounts every day?

And how much for 1 account?

And how much for 1 account?I only said 30 accounts a day as I think that's something I can handle. Just dont want to promise something I cant deliver.

I'm just going to charge a dollar for individual. But as a dispenser, yes I'll crack accounts everyday.
