Thread: [*RESOLVED* \\$200 by Bandors \[GROUP OWNER\] -- UID:1189774](#)

test - June 19, 2016, 11:14 pm

Profile: [Bandors](#)

Amount: \$200 in BTC.

I was looking to have a Twitter jacked. He said he could do it for \$200 so I agreed, transferred him the money and he completely stopped all contact with me. I am super confused as he is a really trusted member and I have been checking his posts all the while I have been waiting and he has been dealing with other clients. This is not a 'Scam Report' but simply a dispute. I completely understand if someone is too busy but contact is a MUST. I just want my money back, that's all.

Spoiler ([Click to View](#))Proof

[I first asked to have a twitter acquired that was out of my price range, so I asked for this one to be acquired.](#)

[He states that he stopped working for personal reasons. I have blacked out the reason to protect his privacy.](#)

[I agree, and just confirm that he won't take PayPal due to my low rep. I also link him my HF profile. He accepts and provides his wallet address.](#)

[I also accept, but ask for a HF PM to confirm he is who he says he is and give him a sentence to copy.](#)

[He asks for my profile link again.](#)

[I provide him my link and state that I will get some BTC for the deal.](#)

[He sends the PM to confirm that he is who he says he is.](#)

[Everything checks out so I ask how long this could possibly take.](#)

[He says he doesn't know and that he will get back to me TOMORROW](#) (Note: This is dated May 9th.)

[I ask him what the deal is and he replies on the 13th of May, 4 days later saying this.](#)

I send countless emails asking what is going on and why he hasn't been responding but that is where he completely stops contact via email.

I get fed up waiting for a reply and make a post in his 'Private Hacking Lessons Thread' which is still being posted in by him even while I am waiting to be contacted.

[My first post in his thread and his reply.](#)

[I post again in the thread, two days later saying I still have not received an email to which he replies saying he has answered it.](#)

[He did reply, asking what my 'display' was on email.](#)

[I simply replied asking what email does he use now, because emailing his old email was going nowhere.](#)

[Skip forward another 5 days after the above PM and I make another post on his thread, saying I have still been waiting on this.](#)

That is where all contact stops from him, I make two last ditch efforts to contact him on the [8th of June](#) and [also the 15th](#) but to no replies.

This user is a scammer and I suggest NOT dealing with him. At the very least check his Trust

Scan/Deal Dispiutes before dealing with him.
