Vouch for Mavis! His methods are always HQ

I would like to see a vouch from a customer.

Egregious Jr. - June 21, 2016, 2:11 pm

Vouch for mavis, sells HQ products. I've seen this guide and it's quite something. Purchase it today.

Human - June 21, 2016, 2:12 pm

(Jun 21, 2016 02:11 PM)Nerdi Wrote: [\[CITE\]](#) Are you offering vouch copies?

If not, that's okay. I'd like to offer 5 cents for a copy. Sorry, but \$1-3 a day is not worth anything and you know that.

1-3\$ a day for a 5\$ method is very worth it LOL. Mavis always has HQ BOoks. If you work at it. Im sure you can make the money

Dufus - June 21, 2016, 2:13 pm

How much is this "small investment" that's required to start? I assume it's on top of the \$5 fee I'd have to pay just to find out how much more I'd have to pay...

This takes like 10mins to do max and you can do it how many times you want a day, you can earn your money back within the hour if you wanted. I make money other ways so this is just some quick and simple way to earn some cash.

£2 at most then you can continue using the profit to make more.

Nerdi - June 21, 2016, 2:16 pm

Okay regardless, I shouldn't be sales trashing. I got carried away. I haven't seen the method and if it is repeatable as you say then it's worth \$5.

I deleted my posts because I realized I was sales trashing.

Omoi - June 21, 2016, 2:17 pm

\$1-3 a day for \$5? Lol, I gave away \$10 to homeless people today while traveling London. I'll give OP \$15 BTC to delete this method and never repost it again.

I see lots of new people asking how to start earning money, this is a simple and effective way. You say everyone here is broke but maybe you just want the attention you are getting.

Dufus - June 21, 2016, 2:18 pm

Would buy but I have exactly \$0 in BTC.

Best of luck to you, OP.

Read my reply above. GLWS

For the record though, attention on the Internet is irrelevant. Positive attention IRL is where it's at.

I concede system is not yours. If system fails, its your bound duty to send an extra copy to anyone who purchase your product Or to say that you will send it in due course as you are reeling with problem at present. But the way you talk is as though I did some wrong thing attempting to buy your ebook. It shows your audacity towards those who buy products here as whole or in particular.

sorry but you changing your story now? you said you used the link and paid, this is your fault and I have nothing to do with it, if you have no email what you bought it with, you sent me an message saying you used an email and the email was never used and now you claim im lying and I know about your money, I have no problem with karma. You have been trying to get this for free for ages and if you follow the steps you should of received it.

Yo Mav, this user pretty much admitted to me on Skype that they were trying to get this for free. They hit me up about some web services of mine, and we ended up talking about eBooks - and he mentioned this.

Just bought the e-book, simple method, But I think it is pretty good.

I once bought a e-book for 20-30\$ here on the forums.

But that e-book was way full of shit and you had to be lucky to earn money.

This is a solid method that will work I think. I will post results when I am done.

Also the support is awesome from Nagisa, big vouch!
