Hey guys so I've been selling jailbroken firesticks on ebay like hotcakes! BUT! i'm only allowed to sell 10 items a month (or 1,000 dollars) I'm curious to know; is it hard to call them and discuss getting a higher selling limits? Any input or suggestions? Thanks ?

I don't imagine they will give you any trouble increasing your limit if you give them a call.

Yes I got an increase in selling limit but how to get it no limit to sell? Is there any idea on this?
