Thread: [\[FREE\] Evil Bob's Middleman Service](#)

Evil Bob - June 22, 2016, 6:12 pm

After going through the dispute section and noticing how many members get scammed due to lack of precaution, I've decided to start a free MM service.

Why Choose Me?

I've been a member of Hackforums for years now, doing clean deals and have never had any reports against me. I've built my reputation on successful deals, totalling over \$100,000 easily. I am fairly active and well experienced on the types of trades I offer. Lastly, its free, you have nothing to lose.

Three Types of MM Service Offered:

1) PayPal | Bitcoin

Ex: User X is selling Bitcoins to user Y. User X sends me the Bitcoins to hold onto. User Y sends the PayPal to user X. User X confirms they have received the PayPal. I release the Bitcoins to user Y. I will never hold onto the PayPal or any reversible currencies, that's your risk to take, not mine.

2) CSGO | Bitcoin | PayPal

Ex: User X is selling a skin to user Y. User X trades the skin to me. User Y sends user X the payment of PayPal or Bitcoin. User X confirms payment has been received. I release the skins to user Y.

3) OldSchool RuneScape Gold | PayPal | Bitcoin

Ex: User X is selling OSRS gold to user Y. User X gives me the gold. User Y sends user X the payment of PayPal or Bitcoin. User X confirms payment has been received. I release the gold to user Y.

Keep yourself safe. If not with me, feel free to find another MM. Just don't find yourself coming out of a trade regretting the choice you took.

All MM trades are done on HF private message system, not Skype.

I would recommend you to update your password, email and re-validate your GAUTH/2fa.

Thanks for the heads up. Everything is backed up with GAUTH. Unless someone has my phone, they can't do anything. Regardless, I'll update it all.
