Thread: [Rate my web design](#)

Tyrro - June 23, 2016, 4:11 pm

I'm trying to get better at graphics design in general so I've been working on some different concepts, here's one of them.

This is something I really enjoy doing and I want to get better at it, so any feedback is HIGHLY appreciated. What do you like? What do you not like?

An AP ROO for \$1299? Where do I buy. ???

No it's a good design though. As for improvements, the centre band I guess you could call it, with the Breitling, doesn't seem to fit. Would probably look nicer with one image.

It's probably worth to mention that I've never owned a watch nor do I know anything about watches, I just winged everything ;)

And thank you for the feedback, much appreciated.
