Thread: [2nd Thread Dz](#)

Me\$\$iaH - June 23, 2016, 7:51 pm

Decided to have a run at a second attempt for a Thread Design. Spent an hour or two drafting a design for an upcoming Graphics Service and releasing the psd shortly after. I need some volunteers to rip into it and point out the flaws so far, this is just draft stage right now so its missing some information and stuffffff.

If that's bugging you I'll update OP asap.

Edit: I'm aware of a spelling mistake or two recently

yo, this is hella nice. clean af. please teach me your ways master ;)

Don't know if I dig the blur at the top with the name. Also, is the "EyeSpye Thread Design" at the bottom just a watermark or is it part of the actual design?

Otherwise, it looks very nice :)

Bottom is meant to be a watermark, what did you believe it to be, I can tweak it? I'll remove the blur and repost a link for the difference in 5

I like it. I suggest asking other people too because more opinions the better.

its too shiny the white page , maybe you can change the white page to the same colors as the other pages , can be really nice !

great design btw :)

I would maybe fade the blur at the top into the picture or keep it consistent and blur all the way through

pictures look a little lq but that isn't under your control. I would go with a more hd set of pictures. Your idea is nice but it was just executed a little sloppy. fix some of the quality issues and you should be gucci

I like it alot, although i would change the "GFX SERVICE" Font.. I feel like it doesn't really fit in.. But that just might be me.

Great job with the edit bro.

One major thing that most new designers aren't aware of is typography.

Your text is very spread-out, thin & overall hard to see.

Such a great and amazing 10/10 cover picture but that GFX service text's color and font is ruining it all.

Therefore, 5/10 :-(

Other parts are 9/10 :-)

I've never actually looked into typography yet, cheers for this I'll give it a read and apply it to a new

design soon.

To my eye I thought the colour of the text blended a bit with the whole thread design, had to do a whole lot of tweaks to get it to fit well though so maybe as you pointed out I was wrong to try "hack" it into the composition. Ill definitely take it to note next time. May even update OP if I get time soon

Looks great. Great work man.

Miniscule - June 25, 2016, 9:04 pm

I don't really like the blur on header, you should just make the text centralized without the blur it looks a loot cleaner in my opinion. Everything else looks pretty good in my opinion. :)

I'm not sure whether you saw the updated thread in a later post without header blur, I'll attach it to a spoiler below

Very nice! I like your edited one. Much better without the blue.

Difficial - June 26, 2016, 10:13 am

Looks extremely nice and very clean, good job
