Thread: [\[100% FREE\] 2000 REAL visitors to your webpage \(organic traffic\)](#)

Ratir48 - June 24, 2016, 4:20 pm

Good evening everybody!

I will be providing this service for free for some time.

As the title says, I will send 2000 Organic visitors to your website / forum / blog.

They can be from around the world or localized, if localized you can choose them to be either from Spain or USA.

You will have to give me keywords for which you will want me to get visitors (i.e. if your website is about siberian huskies, I'll bring people who are interested in siberian huskies only).

I'll make sure they stay on the webpage for a few minutes and will try the best to make them register if it's a community.

PM me

Limit: 5 first to contact me

Thank you ?
