Thread: [Ether award confirmation time?](#)

TheSuspect - June 25, 2016, 8:28 pm

So I sent off the \$20 of Eth for the ether award and it's been over 40 minutes now but the status page says:

Status: Waiting for your funds...

Total Amount To Send: 1.42382000 ETH (total confirms needed: 5)

Received So Far: 0.00000000 ETH (unconfirmed)

Balance Remaining: 1.42382000 ETH

Does it take like an hour or has something gone wrong?

Steve - June 25, 2016, 8:29 pm

Sometimes it can take awhile to confirm. I wouldn't worry about it too much, you will get your award soon enough :)

Calm down, it's the blockchain. It takes a while. Get some coffee, chill out and watch some tv shows. Staring at the transaction won't make it go any faster.

Granny Bacon - June 25, 2016, 8:32 pm

Just remain calm, it will be confirmed as soon as possible. Blockchain takes time to confirm. I've once waited for hours.

RootBite - June 25, 2016, 8:49 pm

you're fine bro. if you sent it, it will show up sooner or later.

ah okay, just seems weird that it hasn't even recognized that it has been sent at all after 50+ minutes.

Nysta - June 25, 2016, 8:57 pm

Copped ether 2 hours ago still waiting as well with my dude

Time Left For Us to Confirm Funds: Too Late

Says this now, not sure what happens from here.

Hm yeah I see that you still don't have it. I'm not sure what happens next. Maybe the ETH will be sent back into your wallet? If it doesn't, definitely save your confirmation so you have proof that you

sent money.

haven't received any sort of email about cancellation but I don't have any Eth either.

ETH does take a while to process, but this is odd, I've never heard of this happening before ?

happened to Nysta too...

Blazin - June 25, 2016, 10:03 pm

It takes a bit longer than bitcoin, I would give it a few hours and if you still don't have it within 24 hours contact Omni.

it says "Too Late" i think that means its no longer open to accepting the eth

Omniscient - June 25, 2016, 10:17 pm

Did you actually send the ETH? Did you send to the correct address in the correct format (HEX)?

I think I sent it correctly. I used MyEtherWallet to make a wallet, used shapeshift.io to transfer \$20.50 BTC to Eth and then I sent it to the addy specified on the coinpayments page, I am unaware of what the HEX format is so I possibly did something wrong there?

Nysta - June 25, 2016, 10:37 pm

I used shapeshift directly for ether and no confirms

Blazin - June 25, 2016, 10:40 pm

I used <https://ethereumwallet.com/> for mine.

So is my eth lost in the network or something now?

Steve - June 25, 2016, 11:23 pm

Honestly OP, you probably just messed it up somehow. I went ahead and solved this problem for

you and gifted you this award. It should show up sometime soon for you!

Sorry if you lost your ETH :(

Holy shit thank you so much, glad to see such generous people around! Let me know if you ever need anything man

EDIT: Now mine has confirmed, what is going on right now... If mine has actually confirmed then what happens to the 2nd award? ?

No problem man. Looks like you just got it, it looks great! And for sure I'll let you know if I every need anything!

Enjoy your award :)

Nysta - June 25, 2016, 11:30 pm

Just got my award as well dope shit

Of course it did hahaha. Well maybe you will get a refund? You might want to PM Omni and ask if one of us can get a refund. I'm not sure what to do either lol.

I actually don't want this specific award (right now at least) so hopefully this isn't solved by me getting the award lol.

TheSuspect - June 25, 2016, 11:31 pm

Honestly not sure what has happened here, it probably looks bad on my part at the moment as another member has just purchased me the award and of course all of a sudden both Nysta and my payments have both gone through. Not sure what happens now.
