Thread: [Are EBOOKS a SCAM? - OFC THEY ARE](#)

FunctionDev - June 26, 2016, 9:01 am

I hear and see all of this "CHECK OUT HOW A ONE YEAR OLD MADE ENOUGH MONEY TO BUY A 2017 AUDI R8 NOW!" and "COME CHECK OUT MY METHOD! SO SIMPLE A BABY COULD DO IT - Only 20\$ (GUARANTEED WORK)" and all of this other bullshit. Seems like a scam to me and most of it probably is. I feel bad for the people who actually fall into this bullshit. All of those fake pictures to make it look like someone actually earned that much. Give me a break. If someone actually did earn that much, they wouldn't need to be selling Ebooks on fucking HackForums lol. The people who are too blind to see this bullshit is amazing.

Spooky White - June 26, 2016, 9:01 am

Depends, heh.

Must purchase one in order to figure out.

No thanks. Most of them are leaked anyway. xD

FamousHater - June 26, 2016, 9:04 am

never thought i would see the day when we needed a thread to figure this out..

ask yourself this question op:

if the ebook is making the money the owner claims then why would he sell it and risk getting saturated?

If you read the thread, you'd understand that the title was misleading on purpose :)

Ratir48 - June 26, 2016, 9:05 am

On HF eBooks are mostly bullshit, public content rewritten with poor grammar and horrible format. The OP just asks his friends to vouch and post fake proof and tadam! It's legit.

Yup, and then they show up leaked on other sites.

Triops - June 26, 2016, 9:06 am

Most of the E-Books are total scams. Someone scammed me a while back on here for a doxing E-Book. It literally contained nothing but public methods taken directly from the Private Investigation and Anonymity section here.

A lot of them really aren't heh.

Many people buy ebooks, refund the money, and then go leak them on other sites.

Talu - June 26, 2016, 9:10 am

Finding an eBook that really works is like finding a needle in a haystack.

or winning the lottery

Riyu - June 26, 2016, 9:12 am

Not ALL eBooks are scams, Most are though.

Gary - June 26, 2016, 9:13 am

A lot of them are, but a few exist that aren't completely shit. Its all about devoting time to the method in the eBook, most people buy them thinking theyll start earning simply by reading.

Brendan - June 26, 2016, 9:25 am

what are you talking about ebooks are great

Same, I made 40k on autopilot from a ebook

Neverest - June 26, 2016, 9:31 am

Usually they are common method,out of million greedy and lazy people all around the internet its not

hard to make couple hundred fall in trap to buy such ebook/s.

DOUGHBOY BALENCIAGA - June 26, 2016, 9:33 am

Don't buy an eBook unless you want to spend \$30 on a public method that is likely leaked on other forums

Huh, I was just reading the post you made on your first E-Book purchase a while back. (Wanted to see if I could still make a scam report or gather evidence of a HF user scamming me)

Desolate Night - June 26, 2016, 9:54 am

I launched my own eBook and hopefully I'll get some sales soon. I can say for certain that my eBook isn't the classic bullshit you get from the Marketplace. Making a decent eBook was my only goal, an eBook which isn't shit for once.

The problem is that honest eBooks can't outshine those people that put "MAKE 99999999999999\$ A DAY" in thread title and new members are more likely to get tricked by stuff like that.

You say this yet you are advertising one in your signature.

-Nath - June 26, 2016, 10:41 am

You're right, most ebooks are scams. I guess there are a very small number of ones which do work. You'd be stupid to sell a method which is making you a shit load of money.

Without even scrolling down, I've already identified a retard

Niko - June 26, 2016, 11:06 am

The only ebooks that aren't scams, are the ones not related to money or spreading.

SZPZ - June 26, 2016, 11:08 am

Ebooks aren't actually scams. Generally they do make you money but you have to invest time, and the output is not usually what is promised.

ailo - June 26, 2016, 12:09 pm

After my experience of buying many ebooks, most of them could work but took too much effort.

OnlyFinesse - June 26, 2016, 12:11 pm

Imo they are complete crap. If they make \$1k+ then why do they sell it for \$10 I dont get it.

BigBooBaby11 - June 26, 2016, 1:11 pm

No dude they're legit! I promise that my \$500,000 a week method for just \$25 works and is totally real!!!!

Aerospace - *June 26, 2016, 4:30 pm*

eBooks work. A lot just require a ton of work. I've had my share of eBooks that I have purchased and have worked just fine. Just gotta find that 1 in the bunch that'll be right for you.
