Thread: [\[FREE FOR OLD FAGS\] Teach you to make 1-2k a month](#)

Widow's Peak - June 26, 2016, 10:18 am

Since [my last thread did so well](#), I've decided to narrow the search down a bit, and make some money by charging a bit.

Teaching will be done in group or individual. Group rates will now be based off of your join year. (alts/bans/other bullshit doesn't count so fuck off)

Rates:

Group (teaching CPA / SEO / Internet Marketing only):

Individual (CPA or any topic of your choosing) - \$50 BTC/ETH - One month of instruction

If you want to join the group or get individual training, please add my skype below. ONE REQUIREMENT: MUST HAVE MIC AND CAN TALK

Skype: rodneyt9

DO NOT PM ME!!!!!!

FAQ:

Why are you doing this?

I need BTC, and I want to give back to the community. I'm helping some people for free that applied in my last thread, but I still think this is a good deal for anyone who has the money. I'll get some of them to vouch here tooo.

Why don't you just do CPA, you'll make more?

It's more work. Much easier to tell people how to make money. I'm also working on projects that will make more than CPA, so it's not really worth the opportunity cost.

Can we see proof of your earnings?

I can show this over remote desktop, live stream, or screenshot. PM me to set one up.

Are your methods legal?

All the methods I use are completely legal. Once you start making a lot though, you'll need to pay taxes if your country requires it.

Interested in this. So you'll mainly be teaching us how to make money using cpa? And then are you

also actually helping us earn along the way or just leaving it up to the people to do that on their own?

Kinguin - June 29, 2016, 9:25 am

Would be great if you could message me your Skype.

Also, what's the minimum we'll earn an day? And if we doesn't earn the absolute minimum an day, doing effort, do we get an full refund then?

cobey321 - June 29, 2016, 10:47 am

whats the usual you earn a day, i have no experience in cpa does that matter?

skeletonbonez - June 29, 2016, 12:23 pm

I don't know for sure how much this method could earn a day, but I pm'd the OP about this and he said it takes him about a month before he is earning enough money that will make \$1k-\$2k a month. So according to that, after a month of doing this method, you should be earning about \$33.33 to \$66.66 a day.

Surely this takes just as much time to teach (if you're teaching efficiently that is) - if you can't do this yourself due to time I don't really understand how you're going to have the time to fully mentor multiple people..

if u cant afford \$10 or \$40 u can work at mcdonalds for 2-6 hours at \$7.25 then you will be able to afford it.

i get it that all of you are poor, but if you aren't an oldfag (i.e guaranteeing your age is at least ~15), then you're either

1. a kid < 15 years old
2. a kid < 15 years old that joined recently.
3. someone >= 15 years old that joined recently

case 1:

go away or ask your mom/dad for money or figure it out yourself. im not a charity for kids. and i could easily make \$45 dollars as a child after about a week of doing chores, work, or something for someone in my neighborhood. pm me if ur in a third world country but you'll have to prove it.

case 2:

should be even easier for you. you can probably get a job at mcdonalds or are smart enough to figure out how to make money. again pm if ur in a third world country.

case 3:

you can definitely get a job at mcdonalds.

key takeaway: if you aren't motivated enough to pay this cheap ass price, i have no sympathy for your poorness unless you're in a third world country.

Yeah see I think that's quite cynical - I and others are in positions where physical work is unavailable due to medical conditions and jobs such as fast food are unavailable. I think the fact you are wanting to help people is fine but assuming everyone is 15 years old and should be working at a fast food restaurant or mowing their neighbors lawn is quite ridiculous. I get the "motivation" and "that's what you would do" but it's not that easy for some people.

are you suffering from these issues yourself? if so PM me or add skype

if you are disabled or have a medical condition, most governments give disability checks.

jobs unavailable - unless you're in a third world country / unable to move, maybe you should move somewhere jobs ARE available. if you say "i cant afford to move" i still have very little sympathy. many buses and public government sources are available in NEARLY EVERY COUNTRY to help people in these types of situations.

Just used the last of my savings to pay off some of my medical bills, I was receiving a med aid from the government a few years back but they have "overpaid" me on numerous occasions and it's hard enough to find the funds in the allotted time to "recover their overpaid amounts" - The drama really isn't worth getting involved in.

I understand what you are saying about the jobs but I think you fail to understand where some people come from in their walks of life. There are barely any jobs in some places, and you can't just fly/bus/train free of charge to get to a new location, live on the street until you do get a job. Some people are even blocked from government aid.

The whole point of this I assumed was to help people get back on their feet with some online earnings to assist in their situation.
