(Jul 2, 2016 10:30 AM)Enterpriser Wrote: [\[CITE\]](#) Bought the \$100 package off Ayden 3 days ago and the extra autopilot method he gives you is 100% reliable and works. In the past three days I made: \$125 on day one, \$50 on day two, and \$200 on day three. But that's just the autopilot method, from his normal ebook I've earned a lot ranging from 50\$-\$300 cards in less then three days.

Some of my BIGGEST earnings (more to come)

No you can do that. I'm just saying that you're missing out on the extra method if you wanted it now. However if you end up paying \$35 to upgrade to platinum then you will still get that extra method.

For the autopilot method you don't need to invest if you don't want to, they're are free alternative options however you can invest any set X amount of money you desire to speed up the autopilot process.

Just out of curiosity, why would you deny refunds and sell your books at a pretty high price. Are you not confident in your own techniques? Because why would anyone want a refund if they can make up to \$1000/WEEK? ?

T.O.S

1. Chargebacks are strictly disallowed, and will result in scam report
2. No leaking/reselling/modifying of my eBook
3. Sales trashing will result in termination of support option.
4. No refunds.

People do ask for a refund after reading/copying the ebook so they spend no money and able to make \$1000/week as you said. You can see why he can deny refunds because not that he doesn't believe in his technique but does understand that people do try to rip sellers off.

Thanks for the summary. \$15.00 is pretty much chump change when it comes to ebooks so offering no refunds on such a small price tag is idle.

It contains 7 methods excluding the tricks, tips, verification etc. Book is very well structured and pleasing to read. The methods seem to be known for experienced users in ewhoring but he has added great deal of information to it which really makes it special. The methods are basically focussed on approach rather than the actual chattering which is great because it will help each buyer to explore their own style and thus keeping the methods from getting saturated. Really well worth 15\$ guide if you ask me.

Good luck!

Hey Ayden. Didn't want to sales trash but had to. First of all the ewhoring bot you have provided me is not working, you said you will refund me but I am yet to get any kind of fucking refund and it's been like a week or so.

So, if you are buying a service/product from Ayden, Be ready for NO SUPPORT OR ANY KIND OF FRIENDLY ADVICE. He doesn't care about you once he gets your money. I have bought two of his products and one of it, isn't working and the other is just a public method

I know whatcha gonna say, "don't sales trash, you're a fucking piece of shit want to get his money back bla bla bla" but I don't care. Just gimme my 20\$ back to my btc and I'll edit this comment once I get it.

And don't tell me you don't have btc at the moment. I know you do. And I guess I might get negged or something by you cause you don't like to listen the truth (saw that on other thread)

would pay top dollar for this ebook since i'm a noob when it comes to ewhoring and this has taught me how the basics yet included advanced methods I haven't seen at all in the eWhoring section. Will be practising my SEing skills so I can do the advanced methods but they do look assuring. Already made \$40 ish (amazon) after getting this around 2 hours ago.

some screenshots of earnings, each email is avg \$10 - \$50 cards in under a few hours... ty again (Jun 28, 2016 03:31 AM)StuffSneak Wrote: [\[CITE\]](#) I received a copy for this in return for a review.

It contains 7 methods excluding the tricks, tips, verification etc. Book is very well structured and pleasing to read. The methods seem to be known for experienced users in ewhoring but he has added great deal of information to it which really makes it special. The methods are basically focussed on approach rather than the actual chattering which is great because it will help each buyer to explore their own style and thus keeping the methods from getting saturated. Really well worth 15\$ guide if you ask me.

Good luck!

Unlike all the other ewhoring ebooks on the market Aydens he sold me the private method as well which is valued at \$100 now ebook + private method clearly stand out and have made me some nice earnings. I was already quite good at ewhoring but now after reading this I've learnt and developed more skills with ewhoring and it's evident that the ebook has paid off. With the combination of the skills he teaches + the method and private source I was rather surprised with the outcome, I've never made so much money eWhoring in my life.

glad I purchased it I can highly recommend it to anyone

In the past three days I made: \$125 on day one, \$50 on day two, and \$200 on day three. But that's just the autopilot method, from his normal ebook I've earned a lot ranging from 50\$-\$300 cards in less then three days.

Some of my BIGGEST earnings (more to come)

Just bought this, will update with a review.

Edit: not to sales trash but everything in this eBook is highly public and there's nothing you couldn't find doing a quick search online.

The basic method contains how to approach ewhoring and how to succeed from start to finish. It's an all in one ebook. Buy purchasing the basic ebook you are at loss of the premium methods that are for sale in the other packages. Since I have been gone for awhile I will be updating this ebook with methods i've obtained throughout being afk over the past 3 years.
