I recently decided to give Enterpriser's eBook a try due to all the positive reviews and I must say, I think that was one of the best descisions I have made in a while. As I was reading through the eBook, I realized that not all eBooks are full of shit. About 1 out of 10, actually contain useful information. I can truly say that Enterprisers eBook " Income Heaven ", is part of that special 1 out of 10 group. Here are my earnings.

Because giving methods to make "\$250/DAY (\$7,500/MONTH)" for 50 dollars makes no sense.

if i knew a way to make 7500 per month i would sell it for 3000 dollars not 50 dollars cause its worth as much or its not worth at all, well honestly i wouldnt sell it at all cause its not worth sharing LOL

you are saying ill be making 7500 dollars per month if i give you 50? no sense

also if you share these methods they will constantly drop on effectiveness so it will cost you more than these 50 dollars u will get. unless you are not using them on your own, but you are, cause you have 7500 per month from it. 7500 is a lot of money man

Enterpriser goes above and beyond when it comes to explaining his methods and provides superb support! I would definitely take advantage of the discount sale before it's too late.

Here's a glimpse of what I've made with Income Heaven so far.

He also told me if I didn't make my money back I was entitled to a refund. There are 5 methods, only 3 worked for me as I didn't meet the requirements for the other 2.

At the end it took some effort, I'm a lazy person but for once I decided to do something progressive and tested the method out.

I made some good profits to my surprise and I'd like to thank Enterpriser for that.

I can say that this eBook has done me wonders and I highly recommend this eBook to anyone who's willing to put in a bit of effort. davidsteez - April 24, 2018, 2:26 pm

Read this before buying Enterpriser his e-book.

I've bought this e-book a few weeks ago and wasn't happy about it. It really wasn't what I expected. I have tried a few of his method but none of them worked (with me). So I wan't a happy customer. I bought the 'Ultimate Package' with a 'full refund' option. After trying a few methods and not being satisfied I asked for a full refund.

After three days I got an answer. 24/7 support right ? When I asked for a refund he replied me with this:

To be eligible for a refund, you must provide evidence that you've tried the methods in the eBook and it has been 45 days since you had purchased

Well first of all this is not true he didn't make this rule somewhere so I am able even to get te refund at day one.

Then after asking questions about the method (because he didn't want me to give a refund). He answered again two days later with:

I'm having difficulties with my WiFi at the moment.

Now I still haven't got my refund which I have been asking for a long time. I feel scammed. Some people may like the e-book but I did not. All I ask is my money back what I don't even get.

My TOS has never changed and it's been at the bottom of my thread ever since this thread was posted. I tried to provide support but it's like you can barely comprehend English whenever I tried explaining it to you but you did in fact write a perfectly good "argument" to why my eBook is trash. Notice the quotes I used? I was hinting sarcasm if you didn't get that part. It really makes me think, maybe you're just another low life that buys shit, demands a refund the second you fail, then complains.

Read over the TOS, and once your eglible for a refund, I will gladly refund you.
