Thread: [Trading Signals - Anyone Interested?](#)

King??? - June 29, 2016, 7:35 am

Hi there guys ?

So basically I currently work with a trading signals company who trade every day, providing around 5-10 signals per day for around 3000 clients.

I was just wondering if anyone would like to get involved?

The company usually charge £79 per month but they also provide a 2 week trial for free. I am willing to completely waiver that fee as I will act as a sort of middleman (I will literally pass on the trades that the company provides me with).

With Brexit happening in the UK, now is a great time to make some money through trading but I will leave off all of the sales spiel and leave the opportunity with you.

If you are interested, post here and we will get you signed up and ready!

Notice the time on that.

Then notice that on the below image, the red circle? The signal was received was it was at the top. Notice the trade at the bottom of the screen? Yepp, that's in profit. And if it was for the fact that I was following exactly what OP was saying, I would've made €22 off of that trade.

 (If anyone would be so kind as to post this as pictures instead of links, it would be much appreciated.)

Stop wasting OPs time. He is providing a free service that is benefiting all of us a lot more than it benefits him. If you can't enjoy the fact that OP is giving you free money, the get the hell off of this thread and piss someone else off.

TO OP: Thank you very much for your service. You are awesome and I appreciated what you are doing immensely. You are doing us all a great deed.

Helped this guy for about 6 hours today, answering all his questions etc. So I decided to give him a heads up on a trade this evening, just to watch it... He placed the wrong trade (after it expired), original trade came in, and he also managed to scrape through and earn himself £32, after lying to me.

Kid, get off the thread, you've already been reported for multi accounting.

I love how you blame me for a FREE service I am providing... Even after I made you £32 in 2 minutes.

Oh... And tried to threaten me with my dox and a picture of me <3

(Jun 29, 2016 07:35 AM)King??? Wrote: [\[CITE\]](#) Hi there guys ?

So basically I currently work with a trading signals company who trade every day, providing around 5-10 signals per day for around 3000 clients.

I was just wondering if anyone would like to get involved?

The company usually charge £79 per month but they also provide a 2 week trial for free. I am willing to completely waiver that fee as I will act as a sort of middleman (I will literally pass on the trades that the company provides me with).

With Brexit happening in the UK, now is a great time to make some money through trading but I will leave off all of the sales spiel and leave the opportunity with you.

If you are interested, post here and we will get you signed up and ready!

how do you know when to get out of a trade?? from your previous pic, is it when it has the thumbs up with diamond , then you get out?

iLL GoBlIN - September 28, 2016, 4:17 pm

I'm interested in this could you send me some information, Thanks

For example:

You get the signal "GPB/JPY UP 130.800 10:55"

This means you call(up) that pair at strike price 130.800 with expiry time 10:55. Whenever you get

the signal you have to react quickly because values can change very fast.
Thumbs up with diamond means that the signal/trade was successful.

Sorry for the lack of updates on here guys!

2016 has been an incredible year and we have made some huge profit!

In 2017 we are going to be making some huge changes, we will be providing managed accounts alongside our brand new apprenticeship scheme which will provide everyone with access to the education, knowledge, training and support to succeed trading the Forex market!

I will close this thread for now as come the new year we will be expanding the signals service - app will be released end of the year ?

Thank you to everyone who has been and is currently a part of the team, we wish you the best over the holidays and we'll be back 2nd January ?
