From the beginning of my HF journey, I can proudly say I have NEVER seen a method like this before. The method is EXTREMELY simple and easy to follow, but the profit that can be generated can be easily upscaled to above \$1000+/monthly

Design ==> 9/10

The design is pretty simple and straightforward. Nothing seems to be a eye sore or anything special.

Grammar ==> 9/10

Grammar is overall good. I saw ONE spelling mistake out of the whole eBook.

Overall Opinion ==> 9.5/10

My overall opinion is this...The eBook and the methods described within the eBook CAN and WILL make your profit back if you are dedicated. You do need to invest some money into it though, but you should make your money back within a day or two if you follow the steps exactly how it's described in the eBook. It's a failsafe method that can generate profit in the thousands if executed properly and maintained. Huge vouch from me. I would highly recommend this eBook to anyone that's looking to earn money using Amazon.

After reading over the well written PDF file. I definitely can see the potential of this method. Yes, this does require an investment, but you decide how much you want to invest. If you do a little brainstorming and put effort into this method you will easily make your money back x10.

It's 100% whitehat which makes this ebook even better. If you have the motivation/investment \$ I recommend you take a look at this book. Which is being sold at fair price. I haven't seen this method before.

Thanks LilDurk you have my vouch. ?

This is not via gift cards, you do not get free items. Per day depends on the item, I can't really say more since it'll spoil the method.

You don't have to worry about the method getting saturated as stated in the thread.

You get paid depending on what ever item it is. This requires like 30 minutes max.

Arrakis - June 30, 2016, 10:37 am

I received a vouch copy to review for this method and am currently setting it up, when I have proof to post I will add it. In the meantime here is my review of this method.

Originality: 9/10

While this method is a very unique one, it is somewhat similar to other methods I've seen. However, this method WILL WORK. The ones it is similar to are by no means the same at all, this is completely unique and can make you a living if you are willing to put in the time and work it requires. The method itself is completely unique in how it is applied and used to make profit. There is absolutely no blackhat, or even greyhat activity involved, however it involves working the system to your advantage. But again, even this is completely whitehat.

Grammar: 9.5/10

No real issues here. The guide is well formatted as well as short and simple. There were minor punctuation errors but nothing that would make it harder to understand. The guide is concise but does not sacrifice clarity. However, be sure to read closely each step as you work through it in order to better understand the method itself.

Ease of Use: 9/10

The only thing that this guide requires over others is some time. You won't make \$5000 and a Ferrari in the first day. However if you take the time and invest yourself you can build this into several thousand a month with relative ease compared to other methods. Anybody can do this method, as long as they have the patience. However, you will need to put forward some effort and maybe even some investment. However it is very minimal and anybody could manage it.

Overall: 10/10

Overall this is one of the best methods I've seen and had the pleasure of reviewing. It's unique and completely impossible to saturate. You simple need to follow the steps and put in what little work is required. If I had to recommend a method that would absolutely work, this one is it.
