Buy Steam Games | 70% Of It's Price

Current Balance: 8.18€ | ~\$9

Method Of Payment: BTC

I am not playing on Steam anymore and I have 50€/\$55.55 on the account so what I am looking for is BTC. I will gift you any game you want for 70% of it's original price.

Just message me with your Steam link and what game you want then I will add you. If you are trusted I will go first then you just send me the BTC and we are done.

The money are currently pending as I am refunding any game that I haven't played enough so I can do this for you. The funds will be available in a couple of days so if you want to use the service and be in line just message me whenever you can.

If you need further proof of the funds just message me!
