Thread: [Ask anything you want about e-whoring with snapchat](#)

10x - June 29, 2016, 3:26 pm

I am willing to answer everybodys questions on how you can do this :)

This is also a journey for motivating all of you.

If you need some image to be resized so there are no black bars I can do this. (Giving away a test before doing a bunch to show that I am legit)

I can also resize videos but it will be much harder to do it haha :)

Regular Member: 1 free resize

L33t member: 3 free photo resize or 1 video

Ub3r member: 5 photo resize or 3 videos.

Don't be shy and ask anything!

Day 1 earnings: 0\$

Day 2 earnings: 75\$ Amazon gift card

Day 3: In progress

Problem for day 3: my sugar daddy is starting to suspect I am fake and wants weird verifications like me moaning his name and wants the things he wants fast (making it really hard to get what I want out of him) might ask for a plane ticket too see him because my pack is starting to run out.

Um do you use the Fake Camera App for SnapChat to, like KIK ?

coco69 - June 29, 2016, 3:31 pm

you can just say you have a small iphone, like a 4s lol usally those show black bars on the stories, when you look at the stories from a iphone 6 plus

GoToSleep - June 29, 2016, 3:51 pm

1) How much do you make daily?

2) Do you drive traffic into kik or simply spam 2-3 times a day with your links (for buying the nudes)?

Mr. Pearce - June 29, 2016, 5:38 pm

A lot of people here say that they are e-whoring on Snapchat and they seems very successful there. But I have no idea how to do that. I mean I know how to e-whore on kik. Share your username and chat! But I still can't figure out what people are doing here. It would be great if someone can post a complete guide on snapchat e whoring. Like how to get traffic, how to send live pics, how to do

verification, how to chat on snapchat kinda things.

SirLord - June 29, 2016, 5:50 pm

What client do you use for it?

Rockchuck - June 29, 2016, 5:55 pm

how do you send pics? i thought it was only live pics

Meow - June 29, 2016, 6:04 pm

How do you send pics on snapchat? For example on iPhone, I assume you need to have jailbroken iphone but let's see

That's really weird the resolution of snapchat is 9:16 and so every phone should match the apps resolution so maybe it's something with only your app?

Yesterday I made nothing as I used that day to drive traffic to my phone, needless to say my phone started blowing up the moment I posted the ads.today I got a 75\$ Amazon gift card by sending him a video of "me" giving someone a quicker and told him that he was my sugar daddy and he got jealous and Bought me this 75\$ card haha

I mainly used snapchat sexting sites to post my profile ;)

I use my iPhone 6s to e-whore and it's very efficient and quick at multitasking and exporting cropped and edited photos (verification). I am not sure about android but iOS is th best place to ewhore on. If you need a bit of guidance pm and I can help you out.

(Jun 29, 2016 05:50 PM)SirLord Wrote: [\[CITE\]](#) What client do you use for it?

Phantom client with slices to control multiple profiles I have some things like men wanting pics by showing very sexy pics in the pack corozon gave me (search the pack it's the most recent one). Make sure you cover the timer on those photos otherwise they know your fake as he didn't use phantom

(Jun 29, 2016 05:55 PM)Rockchuck Wrote: [\[CITE\]](#) how do you send pics? i thought it was only live pics

I used phantom buddy check it out on Cydia ;)

(Jun 29, 2016 06:04 PM)Meow? Wrote: [\[CITE\]](#) How do you send pics on snapchat? For example on iPhone, I assume you need to have jailbroken iphone but let's see

You guessed correctly, phantom really helps because I can post to my story and I can also mass send pics which is helping me out a lot to send specific pics to people who paid such as very specific daily nudes to them of course I have to check what they want manually and give it to them but usually they are satisfied with the Amount I give them ;)

Majin' Vegeta - June 29, 2016, 11:18 pm

Can you tell me how to ewhore with it on android? I have a galaxy 6s

nivek123 - June 30, 2016, 12:01 am

How can people not tell that it wasn't a live pic?

If you search google you can probably find it ;)

How do you engage a convo, do you just send a pic first when they contact you? Then talk via the chat part of snapchat?

Kik is focused on chatting while snap is focused on pictures so i kinda wonder how different you have to work to get them to buy pics also I assume it's not as easy to say hey 20 pics for ... since they're supposed to be all live on snap

If he thinks you are fake I do not think that he will buy you a plane ticket, if he asks for weird stuff say you are outside or with family. It seems to me that you got attached to him ?

depends, if i see they are wealthy like a couple of people

one guy recorded like 70 pairs of jordans and his big mansion
one guy recorded all his cars and shit so i know they are wealthy and milk them using sugar daddy

if they look broke and they piss me off i just sell the pack so i dont have to deal with them in the future :)

From 0\$ an hour to 200\$ an hour depends on customer, how skilled u are, traffic etc....

PRPS - July 3, 2016, 3:02 pm

Seriously snap ewhoring will never make sense to me, because you have to literally send things all the time and theres no pack out there that you can really keep up with it and they'll want video proof and shit. i dont see anyone making money with snap ewhoring unless the client is that dumb. i feel like snap is to much to handle
