Thread: [Looking for 2-3 people to run my Minecraft server with me - fresh server!](#)

Internet Explorer. - June 29, 2016, 6:15 pm

Thinking of doing a Faction or maybe a Prison server, since it's great fun.

However, the server is completely vanilla - no plugins or anything.
Just gave myself OP.

No promotion or anything so far, but I have about 50\$ ready to invest in promotion, or whatever is needed for the server.

Just looking for having fun, and growing the server.

Oh, and by the way; it's a self-hosted server in the UK, so please be from EU.

Kindest regards,
Internet Explorer.

I'm from Canada. I'd like to join you and I realize that I'm not from the EU. I feel like you'd benefit from having a non EU Helper since different time zones can benefit players with their needs. PM me if you'll accept a Canadian :)

Is the server cracked or premium?
Can you give me the ip if cracked plz

Thanks,

I've got a bungeecord network, and I was looking at doing some sort of a cooperative server network. You should send me a message.

Basically, you'd host your servers on a symbiotic network and it would be mutually beneficial for all of us.

I have more info if you're interested.

Sounds proper thinking of starting a Heroes server maybe I could add it to your bungeecord? I could also help with mirroring your server to the NA with hosting.

Maybe you shouldn't be into necromancing threads from 2016 :D

Glad I am the one out here that calls gravediggers out. Thanks for being a quality character.
