Thread: [\[Tutorial\]How to change background music on champion select](#)

Lufasu - June 30, 2016, 12:40 am

Hey , this is my first totorial on hf , hope you like it.

you can change the music to every music you ever want.

Ok so lets start .

1. First of all you need to download a song that you want (recommend MP3)
- 2.If you want this song to be on "Blind Pick" change the song file name to "ChmpSlct_BlindPick"

--

If you want the song to be playing on "Draft Pick (ranked , ETC) change the song name to -
"ChmpSlct_DraftMode"

--

If you want the song to be playing on ARAM mode change the song name to -
"howlingabyss_champselect"

--

now after you choose , go to the ambient folder must looks like that -
Riot Games\League of Legends\RADS\projects\lol_air_client\releases\0.0.1.205\deploy\assets\
sounds\ambient

*Delete the regular queue music that in there and put there your song file that you renamed.

LCS music if you want -

- [1](#)
- [2](#)
- [3](#)

Hope i helped you guys :)

No problem :D
enjoy mate !

Malphurs - July 1, 2016, 12:44 pm

Haha now I got Lil Yachty in every mode. Thanks OP! :D
