The script does work until now, invested \$10 made a total of \$16 until now

I don't feel I need to post picture proofs since there are enough already but you can trust him because he is very patient, answers all your questions

Also, it is gambling so there is always some risk and he also mentions that it's not 100% that it will always work

I vouch for this script

Script works great. Made a 30% return on what I deposited albeit my deposit was quite small at 2200 bits. Nevertheless I cashed out 2800 bits and will be running it over and over again within moderation.

It is actually quite ingenious. I understand why StuffSneak's customers are satisfied. I will continue using this and update with pictures in the future.

CheesyBread - July 23, 2016, 6:40 pm

I don't understand how this script is supposed to work.

It's just I've been spending the last hour crunching numbers here.

Maybe I am taking the wrong approach, but using the available probabilities on SatoshiMiner, I cannot seem to find any strategy that mathmatically gives the player an advantage over the house, and without an advantage over the house this bot is bound to make you lose.

The script works perfectly, StuffSneak helped me a lot in the beginning, when I had some questions. However, please note, that as this is a gambling site, you need to be a risk taker and have luck as well (or at least avoid bad luck), and shall not be greedy, or you can lose all your deposits - script will minimize the chance of this event, but it still can happen. ?

In gambling there is always a chance of losing due to the house edge catching up. Purchased this script and made some decent profits. Important thing to note is that never get greedy.

Thanks StuffSneak, bitcoins well spent on his ebook.

First thing first this is gambling so gamble responsibly but its really hard to gamble all your money away unless your really greedy.

Okay I used his script and it works flawlessly like its the best thing ever.

All of stuff's products are 100% legit and all he wants to do is make us money the only person on HF that actually wants to help us.

If you have a problem with the script shoot him a pm he'll answer when he can trust I shoot him a fuck ton of pms but not about the script its about his other products when i need clearing up.

But i highly recommend anyone to get this and any of his other products he is offering before its too late.

P.s Stuff is the most patient guy i have ever met like its crazy i ask him for advise for my future decisions on HF
