Turning 1 BTC into 2 BTC

Picture: <https://postimg.org/image/limagtq3b/>

I would not advise doing this, it took me 15 games of 100,000 bets to turn it into 2 BTC. A lot of luck was involved.

I used Satoshi Mines to do this! ?

Congratulations I guess?

You should try to be less vague with your threads.

Computing - June 30, 2016, 1:02 pm

What'd you even do to manage this?

?Kill? - June 30, 2016, 1:03 pm

I'm assuming you used satoshimines since satoshimines is in the tabs?

Thanks, I'll make sure to use same method as this time, although it is all about odds and the amount of bits you place. ? I did not do the 24 mines, that's like declaring bankruptcy.

Mostly, I always stayed on 3 mine and made sure not to cash out until I had at least double my stack. Sometimes I got really greedy and made 1,000,000 bits from 100,000.

Talu - July 1, 2016, 3:20 pm

Congrats man. No matter how tempting, I will never get into BTC gambling again.
