MONEY

aimed at the people who aim for the sky.

The official recruitment and discussion thread for the unofficial group Money.

We focus on generating income for ourselves and our group members by providing each other with insights in current projects, tips, and generally helping each other out. The rest stays within the group ?

By becoming a member of the Money group you also receive a joining "bonus" where I will provide you with completely free Binary Option Trading Signals that you may do as you wish with! - No obligations at all!

We are here to make money, so let's do exactly that.

How do I join?

- If you are truly willing to put in the time and effort to generate yourself a real income online, then you can post here or PM me your Skype username. You will then have access to the group where you will be put on a 2 week trial basis.

- If you are already generating an online income of \$500+ per month then you will be automatically accepted to the group due to increasing the groups expertise and knowledge. Send me proof via PM and I will add you.

Join today and starting making real money! ?
