Neal Caffrey fictional fbi person that escaped a prison. wow the goverment loves to tease you guys

woms - July 2, 2016, 9:16 am

He first had it all together I mean some innocent small cooking in middle of desert with Jesse and then selling it to Tuco was not too bad, I mean it could get the cancer treatment paid, and could've got some extra money to leave for his family, but then he got all greedy and it all went to shit. And he liked it.

Mainly kidding, but he's fly as a motherfucka. He doesn't make me gay, but he makes painting art seem more masculine and ballin'

Being criminal is not the point here, and for me it's not even relevant.
Neal Caffrey has a good heart.
Criminal can be a good human or a piece of shit like Walter.

Walter does have a good heart considering he started the biz for his family. Dont watch much of neal's show. Does he have family on the show? And neal is a con artist preying on people smh

Neal Caffrey deserves to die of cancer.

I like the show but walter is a piece of shit who has been consumed by power thinking hes the king pin. Breaking bad is pretty dope though, one of my favourite tv shows. After game of thrones ofcourse :)
