Some advice for the future:

If someone's Paypal Name is "Hick Smoke".. Just know your ass is getting scammed.

Furthermore, no one is going to do anything about this, but you can try doxing him and just making his life a living hell.

I for one do not promote doxing, however I did take the time to type "HickeySmoke" into Google and found some of his music. His music is enjoyable tbh, I'm currently listening to his song 'She so' as we speak.

Yes, someone can do something about this.

Scamming is scamming, let it be \$3 or \$3,000, the person needs to be dealt with.

I didn't say someone can't do anything about it.
I said no one will do anything about it

Either way, staff members will do something about this if it's proven true.
