Thread: [First week of ewhoring stats and experience. \\$340 in my first week](#)

steever - July 4, 2016, 11:13 am

Here is my stats and how my first week of ewhoring went

Monday \$35 paypal | \$10 amazon=\$45

It was my first day ever of ewhoring. At first i was a little skeptical but then again i did not have to invest anything, so i tried it and it ended up working out for me and made an easy \$45 for the day

Tuesday \$15 paypal|\$15 amazon= \$30

Woke up and first thing i did was ewhore on kik haha and made a easy \$20 on paypal in my first hour and made the rest during the day.

Wednesday \$20 paypal 0\$ amazon = \$20

Had no success in the morning so i took a break and also had football practice. Was very tired and did not start again until late at night.

Thursday 31\$ paypal \$25 amazon

Got paid from the first customer i had of the day. Managed to get \$10 from him then smooched another \$15. During the middle of the day im realizing that most of the people i talk to on kik have low iqs lmao.

Friday \$40 paypal \$60 amazon

Probably the highest amount i will make this week since most people get paid on fridays and this was only from a 3 hour work. This was the first ever \$100 i made in one day

Saturday 30\$ paypal \$15 amazon

Dd not have much time to ewhore and the afternoon was slow but at night it was boomin lmao

Sunday \$0 paypal \$45 amazon

Tried to ewhore in church but dint really work out since there was people next to me and some people are nosey af. I thought it was gonna be the first day that i dint make anything but late At night around 10 i got \$45 from one guy.

So in my first week of ewhoring i got \$171 on pay pal and \$170 on amazon to a total of \$340 for the week. for me i think it is good but I'm sure you guys who had a lot of experience make more than

me, but i also learned full time mcdonald workers make \$280 a week so i feel good about myself and hope to continue getting the same amount every week. I also want to thank hack forums and the members because i never would of learned about ewhoring if i hadn't came to this site.

I know some people might say bullshit but ill even show you proof. Just kik me : maddiesocute98 , make sure to state you are from HF so i don't think you're a customer lol.

I dont have 50 post yet to post pictures and only have paypal and amazon no bitcoin to upgrade.

Its honestly all worth it since i usually ewhore while chillin or watchin tv but the only downside for me is sometimes the guys send random dick pics and vids of them jacking off lmao
