I currently have like 4 assignments I need done however as time passes I will need more and more. This is an online English 10 Apex class, Im paying 5-10 dollars in BTC per every assignment depending on how big it is. Honestly there is no due date on this which is why I'm not charging so much.

Just choose the one you want to do and Ill give you the required info

Assignment #1- 5\$

Convert one of the readings from the lesson into an outline that shows how the reading is organised 300-500 words

Assignment #2- 10\$

Write a 600- to 900-word technical document that clearly and simply explains a complicated object, process, or idea to a reader who knows little to nothing about the topic. Your assignment might be a set of how-to instructions, an explanation of the inner workings of a machine, or something else.

Assignment #3- 5\$

Write a 200- to 350-word cover letter to the hiring manager of a pretend company and tried to persuade that person to take you seriously as a job applicant.

Assignment #4- 7\$

Write a compare-and-contrast essay that focuses on differences (or similarities) in language use between Andrew Jackson's message to Congress and Michael Rutledge's account of his great-great-grandfather. You should have used specific examples from each text as evidence to support your ideas. In addition, you should have included several body paragraphs, each focusing on a different point of comparison.

More to come

PM me if interested

I will be leaving this friday for a week so lets try and get the deal started by then
