Thread: [\[njRAT\] "Get Passwords" doesn't work](#)

QU35T - July 6, 2016, 5:46 am

Whenever I try to steal passwords from a victim's Google Chrome it doesn't work, nothing shows up.

And NjRat can steal passwords from Google Chrome, right?

Purple Kief - July 6, 2016, 6:19 am

Isn't njRAT password recovery broken?

I believe I read that somewhere. Fixed in the 0.8 version?

bzr? - July 6, 2016, 6:20 am

It has been known that it's a bit flunky in the official 0.7d. I believe Armada's and UKNinjas release of 0.8d fixes this issue as well as a few others

superdude2xd - July 6, 2016, 6:59 am

There's a fix for 0.7v, you just have to download another plugin. Just google njRAT password plugin and you should see UKNinjas thread on HackForums.

Armada - July 6, 2016, 7:38 am

Has not worked for quite sometime.

Koopa. - July 6, 2016, 7:52 am

Download UKninja's Password Recovery plugin.

DingusMonster - July 6, 2016, 8:55 am

There is a password recovery fix but it never seems to work for me.

_Devil - July 6, 2016, 9:27 am

yes this is the best option for you.

VirtualMon3y - July 6, 2016, 9:34 am

Hey OP check my thread for the plugin...

Feedback your findings. It worked well when I tested it but not re-tested in a while:

?Syria - July 6, 2016, 10:08 am

Its not broken, it just only works with older versions of popular browsers. as new browsers updated the way they save passwords

If it doesn't work try using another RAT, DarkTrack has working password recovery option. It works nice.
