Thread: [HIT 2K SUBS AND 7K VIEWS!](#)

Birdperson - July 6, 2016, 8:15 am

I've a YouTube channel,

It hit 2K last week, I know it's nothing but it's something with 6K views.

We've got 3 videos but the last two are 5 months old truly because we wanted to finish college before anything.

Is this good so far?!

That's awesome man! Just don't give up and make your next goal 5,000. Then shoot for 10k, then 20k, etc. Always have a new goal and you'll succeed :)

Would be nice If we could start uploading together on your channel to grow it more :)

Good job on the subs man, max I've had is line 1.5k but they slowly disappeared. :(
