Just saw this video a couple mins ago and I think this is very tragic but he had a gun on him and also the caller reported that he had a gun on him then he was fighting police.

The guy got what was coming to him.

I'm done with society. All of the cops might not be corrupt but their are plenty of them...

Damn it looks like they shot that poor guy straight in the head.

Did they?

That's pretty fucking brutal. Although that chick crying had me busting up laughing.
