Mr. Man - July 7, 2016, 4:11 am

Used a basic bootstrap template and coded it in PHP.

Website Link: <http://hostinspects.com/>

Read our FAQ @ <http://hostinspects.com/faq>

If you want to review a web host and it is not in the list, please let me know in the comments and I'll add it.

This website is still in development, please let me know your feedback. It would be great if you could post reviews and share your feedback.

Thank you :)

KillerJokeR - July 9, 2016, 6:59 am

Looks neat, too nerdy though...

I would definately give it a try !

Nerdy xD ? Anyway thanks for the review.

Mr. Man - July 11, 2016, 8:35 am

Updated website with following features:

For Hosts:

Detailed ratings

Ability to claim host page if it is unclaimed

Host grouping in index page

For Clients:

3D effects here and there

More fluid layout

Ability to get verified next to website in reviews

General:

Added page generation time

Updated site links and footer quick links

Reduced website load time, currently faster than 90% of other websites

More features and changes will be added in the upcoming days. Be sure to check us out and review your web-host.

youngbandz - July 14, 2016, 11:16 am

This website has a great user experience and is also very well coded. I have to say Mr. Man has also helped me immensely with some coding problems I had with my website. I can't thank him enough. Great member of HF. :)

You're welcome :)

Added new blog section: <http://hostinspects.com/blog> will add blog posts there gradually.

Elhorla - July 17, 2016, 12:55 pm

Very nice website and good project !
