Thanks for the share! Just got myself an RP card

Kyrus - July 8, 2016, 5:09 am

Did not work for me.

Said that since I bought an item that was unique to members with Prime during the trial period, concludes that I have already used a privilege of the Prime Membership and therefore cannot offer me a full refund to cancel my trial period...

:C

\$1. It's a verification to ensure the card works. Pretty sure it'll be refunded.

Worked for me, bought myself a cooler master Devastator II gaming keyboard combo set for \$21~

The \$10 credit will be accredited toward your prime account. The next purchase you make will automatically have the \$10 off promotion.
Thanks OP!
