What do you guys think? I made it for free just because I'm so kind :)

What can I improve/change? Come with suggestions please.

It looks nice, though there are a couple of things I'd change.

Lower the opacity of the background image in the header so that logo is more noticeable.

In about(?) part there's no need for all caps, it only make it harder to read. Also, since there's some empty space on the right, you might want to center the text.

Pricing part looks nice, however, I'd make it a bit bigger so that there's a bit more space between each division.

Contact/payment part looks okay, however light/baby blue doesn't go well with the background color.

You can either add some flat drop shadow to both PayPal logo, and Skype thingy, or simply make the background a bit darker.

I think it looks fine apart from contact section ... agree with Novica advice for that section

The spacing is what bothers me the most. It's not consistent between the places. You have some large gaps, then you have some super small congested areas.

Yes yes.. I admit I was being a bit sloppy with the spacing, I will put more time into that in the future, thanks!

Love 90% of it! Some things you can change are the challenger logo on the bottom, shouldn't be affected by the yellow overlay, and the skype button looks a bit old, try to be more modern with that, and try different colors instead of yellow. Overall, looks nice! I especially love how the pricing part looks.

I give it a 6/10 I like the colours but the design itself doesn't really flow imo.

Didn't like the color. Other than that, it is cool. 8/10.

Looks pretty cool, reminds me of one I've seen before in the marketplace.
