Thread: [Task for expert coders \[\\$500\]](#)

JakeDarkblade - July 8, 2016, 4:41 pm

I'm looking for someone with excellent coding skills to complete a task for me. I have up to \$500 at my disposal. Contact me and ill give you the details to see if it's something that you can achieve.

Syphonite - July 8, 2016, 4:51 pm

Mind giving a rough idea of what it is?

Coders can be anything from website development to software development to game development.

Don't be so vague.

INVULBOX - July 8, 2016, 5:58 pm

Since he posed this in C++, I'm guessing (just a gues) that he's looking for a software developer

That still leaves a lot of possibilities. Is it a security tool that requires crypto knowledge, a high performance networking tool, machine learning application, video game development, or a Linux Kernel Module?

Could be many things. Either way, this section isn't the ideal place to put this. I suggest the Service Requests section (<https://hackforums.net/forumdisplay.php?fid=308>).

Disappear. - July 8, 2016, 6:33 pm

Let me know if you need it.

I've people who can do it!!

Twis??D - July 8, 2016, 8:18 pm

EmptyRedData is right. It's extremely vague and honestly if you're wanting an expert C++ developer, you're going to need a lot more than just \$500..

pretty obvious hes not searching for a painter

Stealth™ - July 8, 2016, 11:03 pm

OP, if it's possible in Java, let me know :)

Remix - July 9, 2016, 12:25 am

Ah, yes, the fact he mentioned a general purpose programming languages with ties in all forms of programming from embedded systems to networking to graphics really helps as narrow down what he wants.

Hoodie+ - July 9, 2016, 11:54 am

Hackforums isn't a good place to find a software developer,
but you posted it here because you want someone who will developer illegal software.

well, here are several guys who know c++ really well
some of them dont mind writing malware as well

There is no such thing as "illegal software", only illegal usage.
Spoiler ([Click to View](#))
Except piracy.

I would rep you for this if i could

0xDEAD10CC - July 11, 2016, 11:38 am

At this point, nobody knows what the heck he wants because he still hasn't replied to his own thread.. Waste of time

CentralIntelligenceAgency - July 12, 2016, 6:49 am

Mind sharing more informations with me.
I'm pretty sure I'm able to do it. ?

Mouse? - July 12, 2016, 6:57 am

He's probably waiting on people to PM him asking for information even though he gave no clue as to what he wanted. Eventually people will realise that you're not going to get anyone worthwhile to do

your project if you come across like that.

I'd be happy to help.

seigweilo - September 30, 2016, 5:31 pm

I've got the advanced crypto C skills you're looking for. Let me know if you're still hiring.

Skidsuper - October 1, 2016, 9:26 am

Since he posted this in the c c++ programming section and not service request section he is probably looking to get it done free.

He also happens to mention that he has 500\$

Mate you bumped a 2.5 month old thread.

Next time at least check the last post date.
