Giving 5 Dedicated proxies that will last a month that I just bought and don't need much anymore. You'll need to give me your IP so I can auth you and you can use em. They're from Europe. First 2 ppl to post get them. (Bypasses proxy and vpn ban)

Just keep pming me when it changes unless it's like once everyday, or you can use a vpn. The other user isn't replying back so pm me ip if u want.
