Thread: [Strange connections on rat](#)

lordnelsonii - July 9, 2016, 9:19 am

Since I restart my rat, I have strange connections,
Owner John, Taquilaboomboom, Abby or Antony from Russia.
Does anyone know what this is ?
Or can I avoid or erase them

Thank you Neos7 for your answer
I did it myself, every time I crypt rat, I use to scan it to see how fucked it is.
Anyway I think that there is no rat scanner who doesn't distribute.
Why does someone put a rat scanner online for free? If it is not to distribute.

Yep, you're screwed! Run for your life man! Piss on HDD and then throw it in the fire! Then give it to a homeless man and run away!

Good luck getting away from MI6!?
