I think Dota2 is big enough to get a new subforum in hf gaming section , what do you guys think about it?

I have not seen one Dota 2 thread on this forum yet.

There was a Dota section about a few months ago, seems like it was removed because it was very inactive. I use to post in there and on the front page was 2-3 month old "last posts".

We had one. People didn't use it.

Post your DOTA threads in the Computer and Online Gaming section.
