Uncheck the watermark when using ManyCam Effects >> Text over Video >> Show logo OFF.

For manipulation of your victim, you can read other tutorials on HackForums.

Select every time the chatting loop as first. If your victim asks for boobs or a wave, you play that loop .

Get a fucking job. You aren't going to make enough for a new PC using Shitcash, unless you're fucking Chris Beer or something.

Get a fucking job.

If your "in a crisis" you have a few options:

1. You do not need a new PC.
2. Go ewhoring...you have some nice packs to use.
3. Get a job.

Also A few sharecash downloads are not going to pay for a PC of any sorts. Unless your getting a

shitty netbook in which case gtfo.

iDuL - July 28, 2010, 4:01 am
